NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Broad-Cide I

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Wexford Labs, Inc.
325 Leffingwell Ave.
Kirkwood, MO 63122

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 34810-30."

b. Revise the text of the Precautionary Statement to read:
"Corrosive. Causes irreversible eye damage. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and chemical resistant gloves. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse."

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

c. Revise the text of the Statement of Practical Treatment in the following manner:

"STATEMENT OF PRACTICAL TREATMENT (FIRST AID):"

"If In Eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention."

"If on skin: Wash with plenty of soap and water. Get medical attention".

"If Swallowed: Promptly drink large quantities of water. Avoid alcohol. Do not induce vomiting. Never give anything by mouth to an unconscious person."

"Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage."

d. Insert the following text after the first sentence of the "Storage & Disposal" statement: "Do not contaminate... . Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If wastes can't be disposed of by use according to the label instructions, contact your State Pesticide office, the Environmental Protection Agency, or the hazardous waste representative at the nearest EPA Regional office for guidance."

e. On the second page of the draft label, revise the first sentence of the product description to read: "Broad-Cide is used for one-step cleaning, disinfecting, deodorizing floors, walls and other, hard non-porous, inanimate surfaces."

3. Submit one copy of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Ruth G. Douglas

BROAD-CIDE

CONCENTRATED GERMICIDAL DETERGENT

BROAD-CIDE is used for one-step cleaning, disinfecting and deodorizing floors, walls, and other hard surfaces. Especially suited for use in Operating Rooms, Intensive Care, Nurseries, Emergency Areas, Patient Rooms and Rest Rooms. BROAD-CIDE is a synthetic germicidal detergent with broad spectrum kill of both gram positive and gram negative microorganisms. It is an excellent cleaner which dilutes clear (1:256) in soft or hard water up to 400 ppm water hardness, and contains biodegradable detergents. DO NOT MIX WITH OTHER CLEANERS.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For disinfection of hard non-porous, inanimate surfaces in hospitals, health-care facilities, schools, and nursing homes, such as floors, walls, bathroom fixtures, shower stalls, and surgical instruments, use BROAD-CIDE at 1/2 ounce per gallon of water. BROAD-CIDE use-dilution may be applied with a cloth, mop or brush on surfaces such as stainless steel, chrome, glass, vinyl, ceramic, and terrazzo. Wet all surfaces thoroughly for at least 10 minutes. A fresh solution should be prepared at least daily or more often if the solution becomes diluted or soiled.

DECONTAMINATION OF CRITICAL OR SEMI-CRITICAL DEVICES PRIOR TO TERMINAL STERILIZATION/HIGH LEVEL DISINFECTION:

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or

decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

***BROAD-CIDE KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING SURFACES/OBJECTS SOILED WITH BLOOD AND BODY FLUIDS WHICH MAY CONTAIN HIV-1 (AIDS virus). PERSONAL PROTECTION:

Wear disposable rubber or latex gloves, gowns, face masks, or eye coverings as appropriate, when performing manual cleaning of these surfaces. CONTACT TIME: Leave surfaces wet for 1 minute. This contact time will not control other common types of viruses and bacteria.

CLEANING PROCEDURE: BROAD-CIDE solution may be used to remove and clean blood and other body fluids from surfaces and objects before disinfection. For lightly soiled areas wipe off visible soil/clean with BROAD-CIDE solution, and disinfect surface with a second application of BROAD-CIDE solution. For large spills the contaminated area should be flooded with the BROAD-CIDE solution before cleaning, then decontaminated with fresh BROAD-CIDE solution.

DISPOSAL OF INFECTIOUS MATERIAL: Blood and other body fluids should be autoclaved and disposed of according to Federal, State and local regulations for infectious waste disposal.
