**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

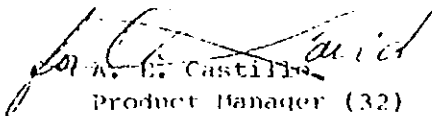

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or file all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 34859-5" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE

12 point

GENERAL CLASSIFICATION

8 point

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Food Processing Plants and Dairies, Milk-Handling and Processing Equipment\*: To sanitize previously cleaned and rinsed food processing equipment and utensils, use 1 oz. WC-130 Sanitizer per 5 gal. water (25 ppm titratable iodine). Apply solution generously with suitable applicator such as a brush or sponge to wet the surfaces thoroughly; for small articles and utensils, soak items in a bath of the solution. Allow a minimum contact time of 1 minute. Allow to drain thoroughly but do not rinse. When used in this manner, WC-130 Sanitizer does not require a potable water rinse.

\*Local health authority regulations for sanitizing dairy equipment may vary; follow the locally recommended procedure.

STORAGE AND DISPOSAL

12 point

Do not contaminate water, food or feed by storage or disposal. Rinse empty container completely with water before discarding.

LEFT PANEL

USES: 12 pint

WC-130 Sanitizer is a sanitizer for food contact surfaces, and contains iodine as the broad-spectrum germicide complexed with nonionic surfactants. It is recommended for meat and poultry plants and equipment, milk-handling and processing equipment, and machines.

WC-130 Sanitizer qualifies as a sanitizer that does not require a potable water rinse after use on food processing equipment and utensils as specified in the Code of Federal Regulations, Title 21, Section 178.1010, Sanitizing Solutions, Paragraph (b) (5).

WC-130 Sanitizer is not adversely affected as a sanitizing rinse in water hardness up to 500 ppm CaCO<sub>3</sub>.

Amber to brown color of use-dilution is indicator of germicidal strength. A fresh solution should be prepared each day or more frequently if noticeable change occurs in the initial color of solution.

See other panel for use directions.
