It All Boils Down To Service!

Chemco WATER TECHNOLOGY

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Corrosive. Causes irreversible eye damage and causes skin damage. Harmful or fatal if swallowed or absorbed through the skin. This product is a potential skin sensitizer. Workers handling this product or treated material should wear impervious gloves, goggles or face shield and protective clothing. All protective clothing, work shoes or boots, and equipment must be left at the work site at the end of the day. Eating, drinking, or smoking during use of this product is prohibited.

FIRST AID: In case of skin contact, wash promptly and thoroughly with soap and water and finally with glycerin. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for 15 to 30 minutes. Get medical attention immediately. If product is swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by scratching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply to marine and/or estuarine oil basins. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or open flame.

EPA REG. NO. 34871-8

EPA EST. NO. 34871 WA-000

ACCEPTED
FEB 21 1988
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 34871-8

ACTIVE INGREDIENTS:

Methylene bis(2-chloroethyl) ether 10.0%
2-Thiocyanomethylbenzothiazole 10.0%
INERT INGREDIENTS 80.0%

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

COOLING TOWERS: CHEMICIDE 946 is used to protect cooling tower wood against soft or surface rot and internal or dry rot. It is applied by spraying or painting a dispersion containing 0.5 to 0.7% by weight CHEMICIDE 946 in water onto clean wood surfaces. The amount applied should provide 0.5 to 0.8 lb. CHEMICIDE 946 per 1000 sq. ft. of wood surface. Soft or surface rot can also be inhibited by periodic shock doses of CHEMICIDE 946 to the recirculating cooling water at the tower basin or cold well. The dosage should provide 1.25 lb. of CHEMICIDE 946 per 1000 gal. of water, and the bleedoff should be stopped for 4 to 6 hr. after treatment. The shock treatment should be repeated every four months.

COOLING WATER: CHEMICIDE 946 is used to control algae, bacteria, and fungi in industrial recirculating cooling water systems. Before treatment is begun, the system should be cleaned thoroughly to remove old algal growth, microbiological slime, and other deposits. System should then be drained, flushed, refilled with water and treated with an initial dose of 1 to 1.7 lb. oz. of CHEMICIDE 946 per 1000 gal. water in the system. Subsequent additions of 0.1 to 0.2 lb. oz. per 100 gal. should be made every 1 to 3 days depending on amount of bleedoff and severity of microbiological fouling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not expose to extreme temperatures. Do not stack more than five drums high. Drums should be opened in well-ventilated areas. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill.

RESTRICTED DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at your EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple-rinsed container then offer for recycling, or puncture and dispose in a sanitary landfill, by incineration, or as allowed by state and local authorities, by burning. Do not reuse.
