EPA REG. NO. 34892-4 EPA EST, NO. 34892-NY01

NET CONTENTS: 55 gallons

MANUFACTURED BY: Y RUSSALL PRODUCTS CO., INC. 1719 WEST FARMS RD. BRONX, N.Y. 10460 WARNING. Causes skin and eye irritation. Harmful if swallowed. Do not get in eyes, on skin or on clothing "When mixing, loading, or applying this product or repairing or cleaning equipment used with this product, wear eye protection (face shield or safety glasses), chemical-resistant gloves, long-sleeved shirt, long pants, socks and shoes. For aerial applicators in enclosed cockpits and applicators applying this product from a tractor that has a completely enclosed cab, eye protection is not required. "Wash hands, face and arms with soap and water as soon as possible after mixing, loading, or applying this product. Wash hands face and arms with soap and water before eating, smoking, or drinking. Wash hands and arms before using tollet. After work, remove all clothing and shower using soap and water. Do not reuse clothing worn during the previous days mixing and loading or application

of this product without cleaning first. Clothing must be kept and washed separately from other household laundry. Remove saturated

clothing as soon as possible and shower. For Containers 1 Gallon or Less

Persons engaged in open pouring of this product must also wear coveralls or chemical-resistant apron.

For Containers 5 Gallons or More

A mechanical system (probe and pump) must be used for transferring the contents of this container. If the contents of a non-refillable pesticide container are emptied, the probe must be rinsed before removal."

ENVIRONMENTAL HAZARDS

Weed Killer #1 is toxic to fish and wildlife. Birds and other wildlife in treated areas may be killed. This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

Groundwater Contamination: Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this perticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

DIRECTIONSFORUSE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. To control most weeds and grasses for extended periods on non-cropland areas such as industrial plant sites, parking lots, loading ramps and around storage buildings and the like apply 1.5 to 7 gallons per 1000 square feet of Weed Killer #1 after the most predominant weeds have emerged. No agitation is required. Weed Killer #1 can be applied with standard spray equipment. For treating small areas, a tank type, hand sprayer or sprinkling can may be used.

NOTE: Users should consult State Agricultural Experiment Stations or Extension Service Weed Specialists for recommendations as to use of Weed Killer #1 in their particular area, or write to Russall Products Co., Inc.

IMPORTANT: Do not apply directly to, or otherwise permit Weed Killer #1 to contact susceptible plants as this product may injure cotton, beans, peas, grapes, flowers, fruit trees, ornamentals, or other desirable plants. Avoid spray drift to such susceptible plants (coarse sprays are less likely to drift). Vapors from this product may injure susceptible plants in the immediate vicinity. Do not apply to areas undertaid by roots of desirable trees and shrubs. Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes (or do not use same equipment for other purposes).

STORAGE AND DISPOSAL:Store only in tightly closed, original container in a secure area inaccessible to children. Do not contaminate water, food or feed by storage or disposal. Do not store near fertilizers, seeds, insecticides or fungicides.

PESTICIDE DISPOSAL:Pesticide wastes are toxic. Improper disposal of excess pesticide spray mixture, or rinsate is a violation of Federal Law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAI: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
