

Precautionary Statements
Hazards to Humans and Domestic Animals

DANGER

Keep Out of Reach Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent convulsions may be controlled by the cautious intravenous injection of a short acting barbiturate drug.

ENVIRONMENTAL HAZARDS FISH AND WILDLIFE PRECAUTIONS

This pesticide is toxic to fish. Do not discharge into streams, ponds or public waters. Do not contaminate water by cleaning of equipment or disposal of waste.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL

Pesticide or rinsate that cannot be used or that is rejected should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

CONTAINER DISPOSAL

Do not reuse empty container or drum. Return to drug store and honor or destroy by perforating or crushing and fluting in a safe place.

RUSSALL INDUSTRIAL WATER COOLING TOWER ALGAEICIDE

Concentrated Algaecide for industrial re-circulating water cooling towers. Helps keep water cooling tower systems clear and free of visible algae slimess.

ACTIVE INGREDIENTS:

n-Alkyl (60% C₁₄ 30% C₁₅ 5% C₁₆) dimethyl benzyl ammonium chlorides 5.0%
n-Alkyl (68% C₁₄ 32% C₁₅) dimethyl ethylbenzyl ammonium chlorides 5.0%

INERT INGREDIENTS:

40.0%
TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER

See side panels for additional precautionary and first aid statements

EPA REGISTRATION NO. 34892-7

EPA ESTABLISHMENT NO. 34892 N.Y. 01

Directions for Use GENERAL CLASSIFICATION

This classification of Federal Law to use this product in a manner consistent with its labeling.

RUSSALL INDUSTRIAL WATER COOLING ALGAEICIDE is a pesticide to prevent algae and slime formation in cooling tower systems.

RUSSALL Industrial Water Cooling Algaecide is designed to prevent algae and slime formation in cooling tower systems.

Initial Dose: 1/2 gallon of **COOLING TOWER ALGAEICIDE** per 100 gallons of water contained in the system. Repeat at 100 days if evident. When systems are controlled add:

Periodic Dose: 1/2 quart of **COOLING TOWER ALGAEICIDE** per 100 gallons of water contained in the system every 100 days. If no visible growth appears, repeat results in clean heavily contaminated systems by the treatment with this product. If soap or other detergent is used, use thoroughly before recharging with **COOLING TOWER ALGAEICIDE**. Apply **COOLING TOWER ALGAEICIDE** at a point in the system where air formation will take place.

Do not be alarmed with the sudden appearance of algae in parts of the system during the first week of operation. This is normal and is a good indication that **COOLING TOWER ALGAEICIDE** has effectively penetrated and is gradually destroying material which has accumulated on the cooling tower surfaces as a result of the sudden treatment used from the system to reduce algae formation.

When **COOLING TOWER ALGAEICIDE** is used to control algae and slime formation and to prevent the development of unsanitary conditions within an industrial plant, use of this product will be after the equipment breakdown.

COOLING TOWER ALGAEICIDE is compatible with other water treatment chemicals but should not be used in the presence of soap or other alkaline detergents. **COOLING TOWER ALGAEICIDE** will not attack or harm hard surfaces.
