Attention: Martin DeRise

Gentlemen:

Subject: Mint Odor Disinfectant  
EPA Registration No. 34892-20  
Your Application Dated November 14, 1988

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Branch, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.

- a. Delete the words "General Classification" from the label.
- b. Revise the referral statement to read:

See side panel for additional precautionary labeling.

c. Revise the "Practical Treatment, FIRST AID" heading to read "Statement of Practical Treatment" (center panel).

d. Delete the "Service Persons" statement from the center panel.

2. The revised Confidential Statement of Formula agrees with the label and is acceptable.

3. We have adjusted our records accordingly:

Old Name: Lemon Odor Disinfectant

New Name: Mint Odor Disinfectant

54737:I:Delaney:LL-20:KENCO:6/23/89:8/4/89:EK:GJ:VO:CT

NET CONTENTS U.S. GALLON

THIS DISINFECTANT reduces the surface tension of water improving its wettability. Microbes are capable of mass reproduction in subvisible pores, scratches and cracks of surfaces. The excellent wettability of THIS PRODUCT improves the penetration of the use solution into areas that otherwise might not be reached.

THIS DISINFECTANT is effective against a wide variety of gram-positive and gram-negative bacteria. It is also an excellent deodorant and is especially effective in controlling odors that are bacterial in origin. Has a pleasant lemon odor.

THIS DISINFECTANT mixes with water to form clear stable use solutions. Use solutions are non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and floor surfaces.

### USE DIRECTIONS

#### GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### APPLICATION INFORMATION

Select the proper dilution of THIS PRODUCT for your use from the directions below. Apply the use solution with a clean mop, sponge, cloth squeegee, mechanical scrubber or mechanical spray device.

Prepare fresh use solutions daily. Do not reuse solutions. Discard solutions when they become visibly soiled. For disinfection, thoroughly wet the surfaces to be treated. Surfaces must remain moist for at least 10 minutes to assure proper germicidal action. If desired, surfaces may then be rinsed with clean water or wiped with a clean damp cloth to remove suspended soils.

This product may be used for cleaning and disinfecting hard, non-porous inanimate environmental surfaces (glass, metal, glazed porcelain, linoleum, tile, smooth leather, vinyl enameled and finished wood surfaces) on walls, floors, appliances and furnishings.

#### CLEANING

To Clean and Deodorize or to Pre-clean Prior to Disinfection: Depending on the square feet of the area to be cleaned, use 16 oz of THIS PRODUCT per gallon of water.
