PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if inhaled. Avoid contamination of feed and feed. Do not store near food or feed products. Avoid [illegible] of dust. Do not apply by hand. Avoid contact with eyes and clothing. Wash thoroughly after handling. May be absorbed through skin. Keep children and pets off treated areas until the material is washed into the soil and grass is dry.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wild life. Birds feeding on treated areas may be killed and other wildlife may be affected. Do not apply where runoff is likely to occur. Do not apply when weather forecast calls for rain within 24 hours. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Hi-Yield 5% DIAZINON Insect Killer Granules gives fast, positive insect control on lawns, ornamentals and other listed outdoor areas.

Overall Lawn Applications: 5% DIAZINON Insect Killer Granules controls the following pests in both grass and ornamental beds:

Ants, Armyworms, Bermuda mites, Brown dog ticks, Chiggers, Chinch bugs, Clover mites, Crickets, Cutworms, Earwigs, Fleas, Lawn spiders, Leaf [illegible], Mites, Sod [illegible]orms, Sowbugs, Springtails, White grubs of Japanese beetle, European chafer, Southern chafer

Apply 5% DIAZINON Insect Killer Granules with a fertilizer spreader. Spreader settings will be given in top of bag. Apply when grass is dry. Water lightly after application. Repeat as necessary.

For application with other types of equipment, apply at the rate of 2 lbs. per 1,000 sq. ft. (Minimum 20 lbs./Acre or 3.2 oz. per 100 sq. ft.) on grass 1/2" to 1½" high. For heavy thatch such as St. Augustine grass stands, the rate should be increased to 3 lbs. per 1,000 sq. ft. (not 4.8 oz. per 100 sq. ft.)

Billbugs: Make a mix of Diazinon Insect Killer Granules and water. Apply 2.5 lbs. per 1,000 sq. ft. of lawn. Water grass thoroughly after application. Treat problem areas in mid-April and again in mid-May.

Chinch Bugs: Apply 5% DIAZINON Insect Killer Granules at the rate of 2 lbs. per 1,000 sq. ft. or 4.6 oz. per 100 sq. ft. Water grass thoroughly after application. Treat when adults appear. Repeat as necessary. For grub control, apply any time between late July and early October.

Nightcrawler worms (New York only): Apply 2 lbs. per 1,000 sq. ft. on grass. Water grass thoroughly after application. Treat problem areas in mid-April and again in mid-May.

Sod Treatment:
Apply 1 - teaspoon of 5% DIAZINON Insect Killer Granules over and around each sod foot.

Controlling Ants: To aid in the control of ants on lawns and other recreational areas, apply 1 cup over 100 sq. ft. of ground. Work this well around immediately after application, water in thoroughly. A minimum of 1 gallon of water should be applied for each mound area. Reapply as necessary. Apply lightly to avoid disturbing ants. Use of high pressure watering equipment may disturb ants and cause migration, reducing product effectiveness.

Note: For best results apply in cool weather (65-80°F) or in early morning or late evening hours. Treat new mounds as they appear.

Chinch bugs: Apply 1 - teaspoon of 5% DIAZINON Insect Killer Granules in line around each side opening. Apply at dusk when ants are not active.

Plant Treatment Against Root Feeders: The following pests are commonly found around or near foundations of homes as well as lawns. Certain of these pests may attack flowers.

Ants, Brown dog ticks, Chinch bugs, Clover mites, Crickets, Earwigs, Fleas, Millipedes, Sowbugs, Springtails, White grubs of Japanese beetle, European chafer, Southern chafer

Apply a 3-foot band of 5% DIAZINON Insect Killer Granules next to the house foundation. Distribute granules uniformly using a rate of 3.2 oz. for each 100 sq. ft. or (lbs. per 1,000 sq. ft.) Water thoroughly after application. Repeat as necessary.

Garden Insect Control: 5% DIAZINON Insect Killer Granules controls certain garden insects on crops listed below. Apply prior to planting and mix thoroughly into soil to the specified depth except where applied in seed furrow.

Controlling Insects and Soilborne Fungi:

Broccoli	Celeriac	Lettuce	Peppers	Swiss Chard
Cabbage	Cucumbers	Lima Beans	Potatoes	Tomatoes
Cauliflower	Endive	Muskmelons	Snap Beans	Watermelons
Chinese Cabbage	(Escarole)	Parsley	Spinach	Winter Squash
Collards	Kale	Peas	Summer Squash	

Apply 7 to 14 oz. per 500 sq. ft. and mix into soil to a depth of 2-3 inches for cutworm infestations. For protection, mix into soil 4-6 inches deep.

Mole Crickets:

Broccoli	Celeriac	Kale	Peppers	Tomatoes
Cabbage	Endive	Lettuce	Potatoes	Turnips
Cauliflower	(Escarole)	Mustard	Rutabagas	

Apply 4 oz. per 500 sq. ft. and mix into soil to a depth of 1-2 inches.

Wireworms:

Broccoli	Collards	Lettuce	Peppers	Tomatoes
Cabbage	Corn	Lima Beans	Snap Beans	Watermelons
Cantaloupes	Cucumbers	Muskmelons	Spinach	Winter Squash
Carrots	Endive	Okra	Summer Squash	
Cauliflower	(Escarole)	Parsley	Sweet Potatoes	
Celery	Kale	Peas	Swiss Chard	

Apply 7 to 14 oz. per 500 sq. ft. and mix into soil to a depth of 4-6 inches.

Broccoli, Cabbage, Cauliflower:
Root Maggots: Apply 7 to 11 oz. per 500 sq. ft. (1,500 sq. ft. may be more beneficial) to row at planting time and mix into soil to a depth of 3-4 inches.

Carrots:
Carrot Rust Flies: Apply 7 oz. per 500 sq. ft. in seed furrow at planting time.

Onions:
Onion maggots: Apply 4 oz. per 500 sq. ft. in seed furrow at planting time.

Radishes:
Root Maggots: Sprinkle lightly at the rate of 3-4 oz. per 500 sq. ft. over row at planting time.

Sweet Corn:
Corn Rootworms: Apply 4-5 oz. per 500 sq. ft. in a band over the row at planting time.

Cutworms: Apply 7-11 oz. per 500 sq. ft. (6½ row feet) in a depth of 1-2 inches for surface cutworms and 3-6 inches for subterranean cutworms.

European Corn Borers: Apply 4-7 oz. per 500 sq. ft. over corn as granules fall into whorls when 75% of the plants show feed protection (whole feeding), and again 7 days later if needed. Treat for second-generation when there is an average of 1 egg mass per plant.

Fall Armyworms: Apply 4-7 oz. per 500 sq. ft. over corn as granules fall into whorls when larvae first appear and again for control of second-generation armyworms, if necessary.

Southwestern Corn Borers: Apply 4-7 oz. per 500 sq. ft. over corn as granules fall into whorls when second-generation larvae first appear. Repeat at application and wash later.

Ye, ie Corn ears be picked at least sixty following last application. Do not feed fodder or livestock for ninety days following last application.

Wireworms: Apply 7-15 oz. per 500 sq. ft. in a broadcast application. Mix into soil to a depth of 4-6 inches.

Sweet Potatoes: North Carolina only!
Wireworms: Apply 11 oz. per 500 sq. ft. over the top of sweet potato plant the age when roots begin to enlarge.

Tomatoes:
Tomato Fruit Worms (Hornworms): Apply 4 oz. per 500 sq. ft. over top of plants when fruit first appear. Repeat at 7-10 day intervals, or as required. Tomatoes may be picked the same day.

Turnips:
Root Maggots: Apply 4 oz. per 500 sq. ft. in seed furrow at planting time.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.
