 Attention: Richard D. Rodgers

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this registration is hereby provided to the registrant. Registration is in no way to be construed as an endorsement of the product by the Administrator in order to protect health and the environment. The Administrator, on his motion, may suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any pesticide for registration under this Act is not to be construed as giving the registrant a right to exclusive use of the name of the product if such name has been covered by others.

This product is conditionally registered in accordance with the provisions of Section 3(p)(7)(A) of the Act.

- You must submit and/or file all data required for a complete reregistration of your pesticide under the Act. The Administrator, at their discretion, may require all registrants of similar products to submit such data.

If these conditions are not complied with, the registration is subject to cancellation in accordance with Section 3(p) of the Act.

HAZARDS TO HUMANS & DOMESTIC ANIMALS  
CAUTION**

Harmful if swallowed. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash hands after use. Keep children and domestic animals off treated areas until they are washed into the soil. Avoid contact with water.

**ACCEPTED**  
NOV 16 1979  
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 34911-19

UNVARNISH

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

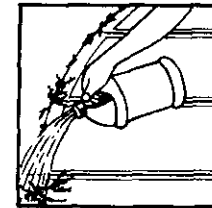

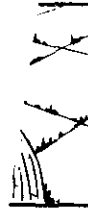

HI-YIELD Improved LIQUID EDGER is a ready-to-use, non-selective, non-hormone, non-volatile, non-flammable grass and weed killer with convenient applicator top. This takes much of the work out of edging around fences, sidewalks, driveways, curbs, flower beds, trees, shrubs and other similar areas. HI-YIELD Improved LIQUID EDGER will not sterilize soil when used according to directions.

Shake well before use. Remove protective cap from jug. Screw applicator head on jug, being certain applicator head is screwed firmly on jug. Invert jug. Thoroughly wet foliage and stems of undesired vegetation. The width of the spray pattern may be adjusted by either raising or lowering the jug. Replace protective cap on applicator head for storage.

2/3

For best results apply during periods of high temperatures and humidity. Retreatment may be necessary if regrowth occurs.

For edging around lawns, fences, sidewalks, curbs and similar areas, hold jug about 2 to 6 inches from the surface of the grass depending on the desired width. One gallon of HI-YIELD Improved LIQUID EDGER used in this manner should treat a strip 2 inches wide and approximately 2000 feet in length. Under warm sunny conditions wilting will occur in 1 to 3 days and complete browning in 5 to 7 days.

For treating larger areas such as vacant lots or similar areas where weed control is desired, hold jug at waist height away from body to avoid contact with skin or clothing and walk slowly, making sure that all undesirable plants are thoroughly covered with spray. Apply 1 gallon to cover 200 square feet. For spot treating weeds, hold jug so that spray hits only the weeds or area to be treated.

**IMPORTANT:** To avoid drift that may injure desirable plants, do not apply during windy weather. Do not apply directly to or allow this product to come into contact with leaves, green bark, bud crowns or broken bark on trees and ornamentals. Do not track from treated areas to untreated areas.

### **STORAGE AND DISPOSAL**

Do not store near feed, foodstuffs, fertilizers, seeds, insecticides or fungicides. Do not reuse empty container. Wrap container and put in trash collection.

**NOTICE:** Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
