PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: May cause eye irritation. Avoid contact to eyes. Do not get on skin or clothing. Harmful if swallowed. Keep children and pets off of treated areas until spray has dried.
 Food utensils such as teaspoons and measuring cups should not be used for food purposes after use with this product.

STATEMENT OF PRACTICAL TREATMENT
IF SWALLOWED—Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.
IF INHALED—Remove victim to fresh air. Apply artificial respiration if indicated.
IF ON SKIN—Remove contaminated clothing and wash affected areas with soap and water.
IF IN EYES—Flush eyes with plenty of water. Call a physician if irritation persists.

ENVIRONMENTAL HAZARDS
 Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

STORAGE AND DISPOSAL
 Avoid contamination of food or feed. When empty container is discarded, wrap container and put in trash collection.

Important: Do not apply this product when rainfall is expected within 6 hours. Do not use in galvanized or unlined steel containers. Do not use on windy days or when weather favors drift. Protect from freezing. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

 and many others

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is a Non-selective Herbicide that will eliminate undesirable vegetation in lawns, driveways, parking areas, between stepping stones and bricks, around fences, patios, flower beds, gardens, buildings, trees, and shrubs without harm to untreated plants and vegetation. One application will kill most weeds and grasses. See list on both sides of front panel of this label for a partial list of weeds and grasses controlled.

How To Use In Rope and Wick Applicators—Fill applicator with concentrate. Make sure wick is thoroughly saturated but not dripping. Apply by rubbing the weeds or grass with the saturated wick.

To prepare a spray solution, mix 8 fl. ozs. of this concentrate with 1 gallon of clean water.

Make a full coverage application being sure to thoroughly wet plant surfaces. Avoid cutting treated vegetation for at least 7 days. If certain hard to kill weeds and grasses are not completely killed in 14 to 21 days repeat application.

For spot treatment in lawns, flower beds, ornamental beds, around trees and shrubs, apply carefully to avoid contact with desirable vegetation. If spray or drift contacts desirable vegetation, wash off immediately with water.

For areas where renovation and reseeding is desired, make a thorough coverage of lawn area. Treated area should begin to turn brown within 7 days, then reseed or sod as desired.

*To prepare a refill for Hi-Yield Ready-To-Use Systemic Weed and Grass Killer, pour 3 1/2 ozs. of this product into the 1 Quart container and finish filling with clean water.

*To prepare a refill for Systemic Vegetation Killer, pour 13 ozs. of this product into the 1 Gallon container and finish filling with clean water.
