# SPRAKIL D-8 GRANULAR WEED KILLER

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended for the pesticide registered under EPA Reg. No. 34913-4

<b>ACTIVE INGREDIENTS:</b>	
Diuron: [3-(3, 4-dichlorophenyl)-1, 1-dimethylurea]	8.0%
OTHER INGREDIENTS:	92.0%
Total:	100.0%

### NON-CROP WEED CONTROL INDUSTRIAL USE ONLY

SpraKil D-8 is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for noncropland areas such as railroad, utility, and highway rights-of-way and industrial areas. 200 to 400 pound applications of SpraKil D-8 per acre usually result in a non-productive condition of the soil for a period of a year or more. The duration of non-productivity is dependent upon rainfall, soil types and other conditions.

SpraKil D-8 should be applied as furnished with a seed spreader, a fertilizer spreader, or with any equipment which will distribute the chemical uniformly over the area to be treated. For the control of annual and most perennial weeds and grasses, apply SpraKil D-8 at the rate of 200 to 400 pounds per acre; on small plots, 1/2 to 1 pound per 100 square feet. Repeat spot treatment may be required when deep rooted perennial weeds are present. Do not exceed 400 pounds SpraKil D-8 per acre per year.

To obtain the best results, SpraKil D-8 should be applied to the ground where it will be absorbed by the roots. Applications made early in the season have been found to give results superior to applications at a later seasonal date. SpraKil D-8 may, however be applied at any time of the year except when the ground is frozen. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult state agricultural experimental stations or extension service weed specialists for recommendations as to use in their particular area.

**IMPORTANT:** Do not apply on or near valuable woody or herbaceous plants or on areas where their roots may extend because of possible injury to such plants. Thoroughly clean spreading equipment with suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Dispose of rinsate according to "Disposal" instructions found under "Storage and Disposal" heading. Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas.

### STORAGE AND DISPOSAL

- DO NOT contaminate water, food or feed by storage or disposal.
- PESTICIDE STORAGE:** Store product in dry area where the container is not likely to come into contact with moisture. Do not store near fertilizers, seeds, insecticides, or fungicides.
- PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
- CONTAINER DISPOSAL FOR BAG:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
- CONTAINER DISPOSAL FOR PAIL:** Triple rinse (or equivalent). Then offer for recycling or dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

### CONDITIONS OF SALE

1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for use as directed on the label. No one other than officer of Seller is authorized to make any warrant, guarantee, or direction concerning this product. 2. Because the time, place, rate of application, and other conditions of use are beyond Seller's control, Seller's liability from handling, storage, and use of this product is limited to replacement of product or refund of purchase price.

### PRECAUTIONARY STATEMENTS

#### HAZARD TO HUMANS & DOMESTIC ANIMALS

#### CAUTION

Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling.

Applicators and other handlers must wear:

- Long sleeved shirt and long pants
- Socks and shoes
- Chemical resistant gloves made of any waterproof material

#### ENVIRONMENTAL HAZARD

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to wildlife and aquatic organisms in adjacent sites. Do not contaminate water when disposing of equipment washwaters.

#### ENTRY RESTRICTIONS

Do not enter or allow others to enter treated area until dusts have settled.
