

PRECAUTIONARY STATEMENTS

**HAZARD TO HUMANS
(& DOMESTIC ANIMALS)**

CAUTION

May cause irritation of eyes, nose, throat and skin. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling.

ENVIRONMENTAL HAZARD

Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste. Do not use water from treated ditches for irrigation.

DIRECTIONS FOR USE

"GENERAL CLASSIFICATION"

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

1. PROHIBITIONS

Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited. Avoid contamination of feed and food-stuff.

2. PESTICIDE DISPOSAL

Pesticide, spray mixture, or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

3. CONTAINER DISPOSAL

Dispose of in an incinerator or landfill approved for pesticide containers, or bury in a safe place.

4. GENERAL

Consult Federal, State or Local disposal authorities for approved alternative procedures such as limited open burning.

**SPRAKIL
B-4 GRANULAR
WEED KILLER**

ACTIVE INGREDIENTS:

Bromacil (5-bromo-3-sec-butyl-6-methyluracil)..... 4%

INERT INGREDIENTS:..... 96%

Total..... 100%

KEEP OUT OF REACH OF CHILDREN

CAUTION

AVOID BREATHING DUST

Harmful if swallowed. In case of contact, wash skin with soap and water. For eyes, flush with water for 15 minutes and get medical attention.

See back panel for additional Precautionary Statements

EPA Registration No. 34913-5

EPA Est. No. 261-257-1A-1

NET CONTENTS: 50 Pounds

NON-CROP WEED CONTROL

INDUSTRIAL USE ONLY

SpraKil B-4 Granular is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for non-cropland areas such as railroad rights-of-way and industrial areas. 200 to 400 pound applications of SpraKil B-4 Granular per acre usually result in a non-productive condition of the soil for a period of a year or more. The duration of non-productivity is dependent upon rainfall, soil type and other conditions.

SpraKil B-4 Granular should be applied as furnished with a seed spreader, a fertilizer spreader, a shaker type applicator, or with any equipment which will distribute the chemical uniformly over the area to be treated. Application equipment is available from SSI Industries, Inc. For the control of annual and most perennial weeds and grasses, apply SpraKil B-4 Granular at the rate of 200 to 400 pounds per acre; on smaller plots, 0.5 to 1.0 pounds per 100 square feet. Repeat spot treatment may be required when deep rooted perennial weeds are present. To obtain the best results, SpraKil B-4 Granular should be applied to the ground where it will be absorbed by the roots. Applications made early in the season have been found to give results superior to applications at a later seasonal date. SpraKil B-4 Granular may, however, be applied at any time of the year. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult state agricultural experimental stations or extension service weed specialists for recommendations as to use in their particular area or write to SSI Industries, Inc.

IMPORTANT. Do not apply on or near valuable woody or herbaceous plants or on areas where their roots may extend, because of possible injury to such plants. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Do not contaminate irrigation ditches or water used for domestic purposes. Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas. Do not re-use this container. Destroy when empty. Do not store near fertilizers, seeds, insecticides or fungicides.
