**STATEMENT OF PRACTICAL TREATMENT**

- if swallowed** - Call a physician immediately. Gastric lavage is indicated if material was taken internally. **DO NOT INDUCE** vomiting unless other treatment is not available. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.
- if inhaled** - Remove victim to fresh air. Apply respiration if indicated.
- if on skin** - Wash immediately with soap and water.
- if in eyes** - Flush eyes for at least 10 minutes with water. Call a physician immediately.
