EPA Reg. No. 35054-1

CAUTION—KEEP OUT OF REACH OF CHILDREN
SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

NET WT. 13 OZ.

CONTENTS

Active Ingredients	
(5-benzyl-3-furyl) methyl 2,2-dimethyl 3-(2-methylpropenyl) cyclopropanecarboxylate	0.250
Related Compounds	0.034
Aromatic Petroleum Hydrocarbons	0.331
Petroleum Distillates	29.385
Inert Ingredients	70.000

Made by MAKIKI ELECTRONICS, Hialeah, Hawaii 96817, Phone 293-5948

FOR HOUSEHOLD USE ONLY DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

TO KILL DRYWOOD TERMITES

Locate the termite hole. Usually drywood termites seal their hole with a plug that is the same color as the wood they are eating. Look for a spot (about the diameter of the needle on the nozzle attachment) that could be a plugged up hole. Push the needle through the plug and spray. **DO NOT FORCE THE NEEDLE BECAUSE IT MAY CLOG OR BREAK. IF NECESSARY ENLARGE THE TERMITE HOLE WITH AN ICE PICK SO THAT THE NEEDLE MAY ENTER FREELY.** Additionally, locate hollow areas by tapping. Use an ice pick or nail to make a hole for the needle. Insert the needle and spray for 5 seconds or until spray mist appears at the entry point or at another point in the wood. Inspect at six months and one year to insure that the entire colony has been killed.

TO KILL COCKROACHES

Use the needle to spray into cracks and crevices, behind wall boards, beneath and behind appliances and into other places where roaches may hide and breed. Apply the spray directly to the insects if possible. Repeat as necessary.

TO KILL ANTS

Spray directly on the ants contacting as many as possible with the spray. Spray ant trails and entry points around doors and windows. Follow ants back to their nest if possible. Insert the needle into the nest opening and spray. Repeat as necessary.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS CAUTION

Harmful if swallowed or inhaled. Avoid contact with skin, eyes or clothing. In case of contact immediately flush with plenty of water. Get medical attention if irritation persists. Clean or remove exposed food. Avoid contamination of cooking utensils and food preparation surfaces.

PHYSICAL OR CHEMICAL HAZARDS

WARNING: Flammable. Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° may cause bursting. Never throw container into fire or incinerator.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collector or take empty container to recycling center.
