

Custom-Pak **HI-CIDE 110** is designed for hospital use based on twin chain quaternary ammonium compounds and acid compatible detergent systems for Hospitals - Industry - Homes.

DANGER:

Corrosive. Keep Out of Reach of Children. May be fatal or harmful if swallowed. Do not breathe vapor or fumes. Produces chemical burns. Do not get in eyes, on skin or on clothing.

FIRST AID

If swallowed, call a physician immediately. Drink a teaspoonful or more of milk of magnesia or a cup of soapy water followed with milk or raw egg whites.

Eye contact: Wash with water for 15 minutes. Get prompt medical attention.

Skin contact: Wipe off the acid gently, immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.

Do not reuse empty container. Rinse thoroughly with water before discarding.

HI-CIDE 110 is a disinfectant bathroom bowl cleaner designed for hospital use. This disinfectant toilet bowl cleaner is especially formulated to kill many germs commonly found in hospital, industrial, and household environments. **HI-CIDE 110** is designed for use in toilet bowls and urinals.

HI-CIDE 110 contains an acid compatible detergent system that removes resistant stains and increases its disinfectant action.

When used as directed, **HI-CIDE 110** cleans, disinfects, and deodorizes in one easy step.

USE-DIRECTIONS

Flush toilet. Add 1 fluid oz. (2 tablespoons) directly to water in toilet bowl (3/4 gallon). Brush to cover all bowl surfaces including under the rim. Flush toilet.

For badly stained bowls, repeat above treatment using 2 to 4 fluid ounces of **HI-CIDE 110**.

For use in urinals, add 1 fluid oz. (2 tablespoons) to 3/4 gallon of water. Apply by brush to all urinal surfaces. Flush.

At 1 fluid oz./3/4 gallon water, **HI-CIDE 110** is effective against Pseudomonas aeruginosa, Salmonella choleraesuis and Staphylococcus aureus (in toilet bowls and urinals). This performance has been confirmed by the AOAC Use-Dilution Test Procedure.

The cationic detergent system of **HI-CIDE 110** inhibits the acid corrosion of metal parts found around toilet bowls and urinals.
