

HI-CIDE 320 is an industrial cleaner which disinfects as it cleans. It is especially designed for schools, institutions, and industry. A single application removes dirt and grime, disinfects, and is virucidal. When used as directed, the hard surface disinfecting action of **HI-CIDE 320** will reduce the hazard of cross-infection.

HI-CIDE 320 is an extremely effective one-step sanitizer. It cleans and sanitizes in waters up to 1000 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

When used as directed, **HI-CIDE 320** will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

WARNING

Keep out of reach of children. Causes eye and skin irritation.

Avoid contamination of food. Harmful if swallowed.

FIRST AID: Avoid getting product in the eyes. In case of contact, flush copiously with water and seek medical attention.

Avoid getting on the skin. In case of contact, flush copiously with water immediately to avoid possible skin irritation.

Do not reuse empty container. Rinse thoroughly with water before discarding.

USE DIRECTIONS

Add two ounces per gallon water.

Apply **HI-CIDE 320** to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop.

At two ounces per gallon use-level, **HI-CIDE 320** is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli*, and *Trichophyton interdigitale*, the athlete's foot fungus. Germicidal performance against the first three organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance against *T. interdigitale* was determined by the AOAC Fungicidal Test.

*At two ounces per gallon use-level, **HI-CIDE 320** is virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza A₂ as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus, on inanimate environmental surfaces.

Note, this product is not effective against *Ps. aeruginosa* at this use-level.

For sanitizing add one ounce per gallon of water.

Use **HI-CIDE 320** for sanitizing and cleaning utensils, equipment, and other hard surfaces. When sanitizing food processing equipment and utensils and food contact surfaces, rinse thoroughly with potable water.
