

**PRECAUTIONARY
STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS
CAUTION**

May be harmful if swallowed, inhaled, or absorbed through the skin. Contains petroleum distillate. If swallowed, do not induce vomiting because of aspiration hazard. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Wash thoroughly with soap and warm water after handling. Avoid contamination of food, animals and food preparation areas. Remove pets and cover fish aquariums before spraying. If poisoning occurs, get prompt medical attention.

Note to physician: Solvent may present aspiration hazard. This product contains a cholinesterase inhibitor. Atropine, by injection, is antidotal and should be administered only if signs of cholinesterase reaction have appeared.

PHYSICAL & CHEMICAL HAZARDS

FLAMMABLE: Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**STATEMENT OF
PRACTICAL TREATMENT**

IF SWALLOWED: Call a physician or Poison Control Center immediately. Do not induce vomiting because of aspiration or chemical hazard.

IF IN EYES: Flush with plenty of water. Call a physician. Irritation persists.

IF ON SKIN OR CLOTHING: Remove contaminated clothing and wash before reuse. Wash skin with soap and warm water. Get medical attention if irritation persists.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry area away from heat or open flame.
DISPOSAL: Recycle, cap and discard container in trash. Do not incinerate or puncture.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Use: Home and Non-Food Areas: Industrial Establishments. Spray surfaces to wetting. Point spray away from people and plants. Avoid excess wetting of plastic, rubber or asphalt surfaces, such as tiles and floor covering.

FOR SPOT TREATMENT

Indoor Use: Ants, Cockroaches, Crickets, Saw-toothed Grin beetles (exposed stage), Scorpions, Silverfish, Spiders, Waterbugs. Spray into cracks, crevices around baseboards, and other places where these insects hide. Apply behind and beneath cabinets, refrigerator, sink, stove and in and around waste containers. Repeat as needed. Do not spray fondly or house plants. For ants, spray trails and places where ants enter premises. Do not allow children to contact treated surfaces until surfaces are completely dry.

Aerochem General Purpose Spray

ACTIVE INGREDIENTS:

Pyrethins	0.051%
* Piperonyl butoxide Technical	0.100%
** N-Octyl bicycloheptene dicarboximide	0.167%
*** 2,4-Dimethylphenoxy phenol methyl phosphate	1.054%
**** INERT INGREDIENTS	98.622%
	100.000%
* Equivalents to 0.051% bicycloheptene dicarboximide and 0.001% treated compounds	
** MPA 8004 Insecticide Synergist	
*** Pyrethrin	
**** Contains germicide	

KEEP OUT OF REACH OF CHILDREN

CAUTION

Net wt. 16 oz

EP. Reg No 35138-66
EPA Est No 35138-MS-1

Brown Dog Ticks: Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.
FOR CRACK AND CREVICE: Apply as follows:
Ants, Brown Dog Ticks, Carpet Beetles, Cockroaches, Crickets, Dermestids, Earwigs, Flies, Silverfish, Sawbugs, and Spiders. Apply spray in small amounts directly into cracks and crevices. The attached equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where the above listed insects hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air.

Outdoor Use: Ants, Brown Dog Ticks, Clover Mites, Crickets, Earwigs, Flies, Millipedes, and Sawbugs. Spray infested areas thoroughly, including outside surfaces of doors, screens, window frames, foundation's patios, or other places where insects may enter.

For Ants: Spray hills and runways.

Repeat as necessary. Do not spray vegetation.

For Wasps, hornets, bees and yellowjackets: Direct spray at insects whenever possible, and into nests, cracks, holes and crevices whenever insects are noticed. Spray into surface is most. To prevent entrance of insects into the house, spray around points where outside plumbing faucets enter the house and into any cracks and crevices in foundation and eaving sills and ledges.

To kill Ants, Roaches, Crickets, Silverfish, Sawbugs, Spiders, Earwigs, Brown Dog Ticks, Flies, Carpet Beetles, Dermestids: Pest control in Meat Packing and Food Processing Plants, Food Storage areas, Stores, Warehouses, Restaurants, and other food handling establishments (places other than private residences in which exposed food is held, processed, prepared or served).

FOOD AREAS: LIMITED TO CRACK AND CREVICE TREATMENT ONLY. Apply a small amount of material directly into cracks and crevices, such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, or hollow equipment legs where the insects noted above hide. Do not use this product in conduits, motor housing or electrical switch boxes. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

Application of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.
