PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Wash with soap and water after use. Obtain medical attention if irritation persists. Avoid contamination of food or feedstuffs.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

INTRODUCTION: Concentrate for Fleas acts on the immature life stage of the flea, preventing the adult flea from developing. Flea eggs deposited on and larvae crawling onto treated areas will not develop into adult fleas. Existing adult fleas and flea pupae are not affected.

If a high population of adult fleas (the biting stage) is present, the use of an adulticide may be necessary for immediate relief. For best results, use Concentrate for Fleas prior to the flea season. When applied to surfaces where fleas are found, such as carpets, upholstered furniture and pet sleeping areas, Concentrate for Fleas prevents adult flea emergence for 7 months (210 days).

Flea control on pets is important in prevention of introduction of adult fleas indoors. When using this product, and fleas are problems on pets, the pets should be treated with an effective registered flea control product to prevent the introduction of adult fleas indoors.

Method and Rate of Application: Prepare a diluted spray solution by adding 1 ounce of Concentrate for Fleas to 1 gallon of water. Partially fill the mixing container with water, add Concentrate for Fleas. Shake, and fill to final volume. Shake before each use.

Apply at a rate of 1 gallon of diluted solution per 1,500 sq. ft. of surface area with any low pressure sprayer typically used for indoor applications. Treat all areas which may harbor fleas, including carpets, furniture, pet sleeping areas and throw rugs. Treat under cushions of upholstered furniture. Avoid contact with treated surfaces until dry.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Keep container closed.

DISPOSAL: Do not reuse empty container. Wrap container in several layers of newspaper and discard in trash.
