L	٦	
		- <u></u>
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this roduct always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.		
Make the following labeling changes before you release the product for shipment:		
 Delete "or burying in an approved landfill" from the Storage and Disposal section. 		
	nitization of Food Contact itization of Nonporous Food	
A stamped copy of the product label is enclosed for your records.		
Submit one copy of the final printed labeling before		
SIGNATURE OF APPROVING OFFICIAL		DATE

 \mathcal{T}

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

DIRECTIONS FOR USE IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

Clean touipment surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with GIL-SUPERCHLOR solution containing 200 ppm available chlorine. Maintain contact with the sanitizer for at least 2 minutes. Do not rinse equipment with water after treatment and do not scak overnight. Prepare a sanitizing solution by thoroughly mixing 2 oz. GIL-SUPER CHLOR with 10 gallons of water to provide approximately 200 ppm available chloring by weight.

ppm available chlorine by weight.

SHELL EGG SANITIZATION

Thoroughly clean all eggs. Thoroughly mix 2 oz, of GIL-SUPER CHLOR with 10 gallons of warm water to produce a 200 ppm available chlorine solution. The sanitizer temperature should not exceed 130°F. Spray the warm sanitizer so that the eggs are thoroughly wetted. Allow the eggs to thoroughly dry before casing or breaking. Do not apply a potable water rinse. The solution should not be reused to sanitize eggs.

FRUIT AND VEGETABLE WASHING

Thoroughly clean all fruits and vegetables in a wash tank Thoroughly mix 5 oz. of GIL-SUPERCHLOR in 200 gallons of water to make a sanitizing solution of 25 ppm available chlorine. After draining the tank, submerge fruit or vegetables for minutes in a second wash tank containing the recirculating sanitizing solution. Spray rinse vegetables with the sanitizing solution prior to packaging. Rinse fruit with potable water only prior to packaging.

STORAGE AND DISPOSAL

Store in a cool, dry area from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved landfill. Product or rinsates that cannot be used, should be diluted with water and disposed of in a sanitary sewer. Do not contaminate lood, or feed by storage, disposal or cleaning of equipment.
