

[55-110-1]

DIRECTIONS

Rub the cloth over the exposed surface of the skin. It leaves a light film of Repellent that mosquitoes won't dare penetrate. If the skin is heavy with perspiration, dry first with a clean cloth.

CAUTION

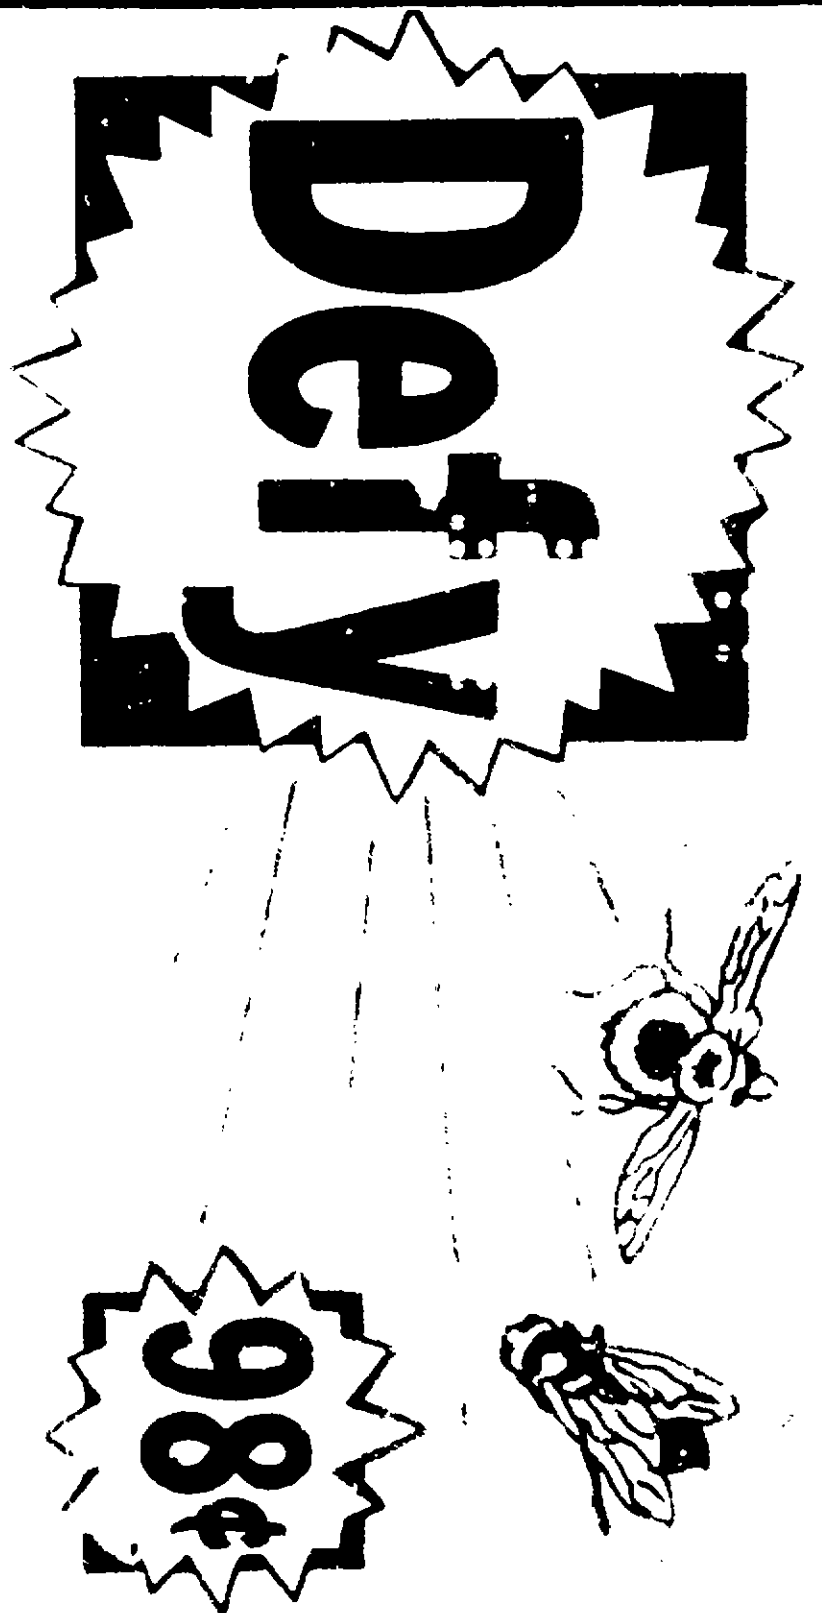

Do not apply around eyes, mouth or tender skin areas. Also do not apply to any articles of plastic, such as watch crystals, frame glasses, rain gear, painted and varnished surfaces, rayon and synthetic fabrics. Will not harm cotton, linen or wool.

MAYBE IRRITATING TO EYES OR MUCOUS MEMBRANE.
