

LEISUR-AID[®]

ALGAECIDE CONCENTRATE

FOR CONTROL OF ALGAE IN SWIMMING POOLS

35284-2

| | |
|--|--------|
| Active Ingredient: | |
| Poly [oxyethylene(dimethyliminio)ethylene (dimethyliminio)-ethylene dichloride] | 60.0% |
| Inert Ingredient: | 40.0% |
| Total | 100.0% |

Density: 9.6 lbs. Per Gallon

CAUTION **KEEP OUT OF REACH OF CHILDREN**

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. If swallowed induce vomiting by giving 1 or 2 tablespoons of salt in warm water and sticking finger in back of throat. In case of contact with eyes flush with plenty of water for at least 15 minutes. If eye irritation persists call a physician. Avoid contamination of food.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Apply this product only as specified on the label.

NOTICE

Seller's guarantee shall be limited to the terms of the label and subject thereto the buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.

DIRECTIONS FOR USE

LEISUR-AID ALGAECIDE CONCENTRATE is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using.

For pools having just visible algae growth add an initial dose of 11 to 17 fl. oz. of LEISUR-AID ALGAECIDE CONCENTRATE per 10,000 gal. of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 6 to 11 fl. oz. per 10,000 gal. of water.

To maintain pools free of visible algae growth, subsequent additions of 2 to 4 fl. oz. of LEISUR-AID ALGAECIDE CONCENTRATE per 10,000 gal. of water should be made every 5 to 7 days after the initial treatment. (Equivalent to 3.2 to 6.0 p.p.m. active.)

Uniform distribution of LEISUR-AID ALGAECIDE CONCENTRATE throughout the water in the pool is necessary for maximum effectiveness.

LEISUR-AID ALGAECIDE CONCENTRATE is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. LEISUR-AID ALGAECIDE CONCENTRATE can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

1. PROHIBITIONS

- Do not contaminate water, food or feed by storage or disposal
- Open dumping is prohibited
- Do not reuse empty container

2. PESTICIDE DISPOSAL

Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

3. CONTAINER DISPOSAL

Triple rinse (or equivalent) and offer for recycling or bury in a safe place away from water supplies. Larger drums may be resealed and offered for reconditioning or returned to manufacturer.
