

GROWERS 455 SOLUBLE OIL

DIRECTIONS

It is a violation of Federal law to use this product without its labeling.
Do not apply this product in a way that will either directly or through drift, Only proper application. For any requirements consult the agency responsible for pesticide registration.

AGRICULTURAL USE

Use this product only in accordance with the Worker Protection Standard, 40 CFR part 170.1 for the protection of agricultural workers in greenhouses, and handlers of agricultural pesticides for training, decontamination, notification and recordkeeping. This label contains specific instructions and except where noted, these instructions apply to uses of this product which are listed on this label.
Do not enter or allow worker entry into treated areas until the entry interval (REI) of 4 hours.
PPE required for early entry to treated areas: Worker Protection Standard and that includes: been treated such as plants, soil, or water.
• Coveralls
• Chemical-resistant gloves, such as nitrile rubber or Neoprene rubber or Viton.
• Shoes plus socks.

ACTIVE INGREDIENT:
Petroleum Oil 97.0%
INERT INGREDIENTS: 3.0%
TOTAL 100.0%
Unsulfonated Residue (minimum) 92%

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS (& DOMESTIC ANIMALS)

Personal Protective Equipment:
Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category E on an EPA chemical resistance category selection chart.
Applicators and other handlers (other than mixers and loaders) must wear:
• Long-sleeved shirt and long pants.
• Chemical resistant gloves, such as Barrier Laminate or Nitrile rubber or Neoprene rubber or Viton.
• Shoes plus socks.
Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
Engineering controls statements:
When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.
User Safety Recommendations:
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

CHEMIGATION PROHIBITION

Do not apply this product through any type of irrigation system.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

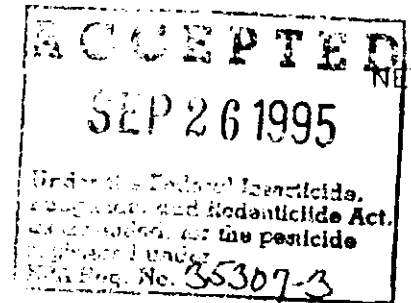

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal.
STORAGE: Store in a cool, dry, locked area out of the reach of children. Keep oil container tightly closed in storage to prevent entry of water.
PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: METAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. **PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting. Call a physician immediately.
IF ON SKIN: Wash with soap and water.
IF IN EYES: Flush with water.
IF INHALED: Remove to fresh air. Call a physician immediately.

DIRECTIONS

It is a violation of Federal law to use this product in a way that is inconsistent with its labeling.

Do not apply this product in a way that will cause drift. Only apply to the target area. For any requirements, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE

Use this product only in accordance with the label directions. For the protection of agricultural workers from pesticide hazards, especially in greenhouses, and handlers of agricultural products, for training, decontamination, notification and emergency procedures, this label contains specific instructions and exceptions. Only the instructions on this label about personal protective equipment (PPE) apply to uses of this product that are listed on the label. For the Worker Protection Standard, see 40 CFR part 170.

Do not enter or allow worker entry into treated areas until the reentry interval (REI) of 4 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves treated areas such as plants, soil, or water:

- Coveralls
- Chemical-resistant gloves, such as Barrier Laminate or Nitrile rubber or Neoprene rubber or Viton
- Shoes plus socks.

CITRUS (Florida) - Grapefruit, Lemons, and other citrus fruits:

CITRUS APPLICATION: Spider mites, Purple scale, Yellow scale, Brown soft scale, use 5 gallons of oil in 500 gallons of oil per acre in sufficient water to assure coverage.

Consult the Florida Citrus Spray and Disposal Manual for complete details on the spray application conditions.

Precautions in the use of oil include: Do not apply to wilting or near wilting. Do not apply to other. Oil spray applied after October 1 to cold damage and may reduce the fruit. Applied in the fall may inhibit solids formation of fruit, and should not be applied to sensitive foliage may be injured.

CONDITION

All statements concerning the use of this product are directed. THE MANUFACTURER MAKES NO WARRANTY, EXPRESS OR IMPLIED, CONCERNING THIS PRODUCT. READ THE LABEL CAREFULLY.
