**CHLORINE
LIQUIFIED GAS
UNDER PRESSURE
NONFLAMMABLE**

For use as a Disinfectant and/or Algicide by experienced personnel only, in municipal water supplies, sewage and waste management plants, and in commercial and industrial swimming pools; as a slimeicide in water cooling systems and in paper mills; and in re-packaging into portable cylinders. Repackagers must obtain their own registration with Environmental Protection Agency.

ACTIVE INGREDIENT: Chlorine _____ **99.5%**
INERT INGREDIENTS: _____ **0.5%**

**KEEP OUT OF REACH
OF CHILDREN**

DANGER

POISON

FIRST AID: In case of inhalation exposure remove patient to fresh air. It may be necessary to remove clothing. Keep warm by covering with a blanket and keep quiet. Call a physician. If breathing has ceased administer artificial respiration.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMAN & DOMESTIC ANIMALS
DANGER**

Fatal if inhaled. Do not breathe vapor. Corrosive to eyes, skin, and mucous membranes in the presence of moisture. Do not get in eyes, on skin or on clothing. Wear goggles, protective clothing and rubber gloves when handling. Do not heat containers.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters, unless in accordance with an NPDES permit. For guidance contact the regional office of the Environmental Protection Agency.

CHEMICAL-PHYSICAL HAZARDS: Chlorine is a non-flammable gas, liquified, under pressure. Do not drop container. Keep away from intense heat or open sunlight. Corrosive to most metals in the presence of moisture.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only specifically designed dispensing equipment should be used in accordance with manufacturer's instructions and according to state regulatory agency recommendations for dosages or residual chlorine levels which should be maintained for each specific site of application.

Have available gas masks approved for chlorine service by the U.S. Bureau of Mines or the National Institute for Occupational Safety and Health. Handle and use only in accordance with practice recommended in the CHLORINE MANUAL published by the Chlorine Institute, Inc., Washington. Use only in well ventilated areas.

For further information see Product Safety Information Sheet for CHLORINE.

STORAGE AND DISPOSAL

STORAGE: Cylinders and ton containers of chlorine should be stored in a dry area away from sources of heat and protected from direct sunlight and precipitation. They should be segregated from other compressed gases and not stored near hydrocarbons, finely divided metals, turpentine, ether, anhydrous ammonia or other flammable materials.

Exercise due caution to prevent damage to or leakage from the container.

DISPOSAL OF CONTAINER: All chlorine containers are returnable and should be returned as promptly as possible when empty. It is illegal to fill a container without permission of owner. All valves must be closed tight and closures or caps secured. It is illegal to ship a leaking chlorine container.
