Pyrenone is a registered trademark to FMC Corporation.
CAUTION: Harmful if swallowed. Avoid contamination of feed and foodstuffs. Do not reuse empty container. Destroy by perforating or crushing and burying in a safe place.

CAUTION: This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

CAUTION: Do not use on horses that are to be used for human consumption.

DIRECTIONS For SPRAY MIST
 First, remove excess dirt and dust by brushing. Shake container well and apply light spray mist to horse's coat, paying particular attention to legs, shoulders, shanks, and neck. Do not spray mist around the head and eyes. Dampen a soft cloth and wipe head, avoiding eyes. Repeat as necessary.

Establishment Reg. No. 8474-OH-1
 E.P.A. Reg. No. 35376-1

For Use on Horses and In Barns
 SuperShield™ the non-dirty fly repellent, has been developed for use full strength on horses. May be applied with the trigger spray applicator, as a wipe, and by fogging. SuperShield may be used by itself or as the perfect complement to ShowSheen. SuperShield kills and repels Stable Flies, Horn Flies, House Flies, Face Flies, Horse Flies, Deer Flies, Bot Flies, Mosquitoes, and Gnats.

DIRECTIONS For Wipe On USE
 First, brush horse's coat to remove excess dirt and dust. Shake container well and dampen a soft cloth with SuperShield. Rub over hair with special attention to the legs, shoulders, shanks, neck and facial areas. Dampen all areas to be protected. Repeat as necessary.

DIRECTIONS For SPACE SPRAYING
 Close doors and windows and shut off ventilating systems. Mix SuperShield thoroughly. Apply with a good machine, adjusted to deliver a fine mist or fog. For rapid control of exposed stages of Flies, Fruit Flies, Gnats, Mosquitoes, Skipper Flies, Wasps, Hornets, Angoumois Grain Moths, Mediterranean Flour Moths, Indian Meal Moths, and Tobacco Moths: Direct spray at an upward angle, distributing spray uniformly throughout the entire area, at a rate of 3-6 ounces per 1,000 cubic feet of space. Vacate treated area and ventilate before reoccupying.
