 FOR PESTICIDE REGISTERED
 UNDER NO.

**CHEM PRO
 MICROBIOCIDES NO. 211**

ACTIVE INGREDIENT
 Poly (oxyethylene (dimethylamino) ethylene (dimethylamino) ethylene dichloride) 25.0%
INERT INGREDIENT 75.0%
 This product contains 2.19 lbs of active ingredient per gallon and weighs 8.79 lbs per gallon.

**KEEP OUT OF REACH OF CHILDREN
 CAUTION**

**PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Irritant to eyes, nose, and throat. Avoid breathing dusts or vapors. Wash thoroughly with soap and water after use. Avoid contact with skin and clothing.

PRACTICAL TREATMENT (FIRST AID): If swallowed, drink plenty of water. If inhaled, get fresh air. If on skin, wash with soap and water. If in eyes, flush with water. Avoid alcohol and oily substances.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Permits may be required for discharge of this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

**DIRECTIONS FOR USE
 GENERAL CLASSIFICATION**

This is a pesticide of Federal Law. Use this product only as directed on the label.
 Chem Pro Microbiocides No. 211 is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algal growth, microbial slime and other deposits. An initial slug addition of 2.5 to 5.8 fluid ounces of Chem Pro Microbiocides No. 211 per 1000 gallons of water to provide a concentration of 1.2 to 4.8 parts per million of Chem Pro Microbiocides No. 211 based on the total weight of water in the system is recommended. Repeat initial dosing is not required. Subsequent slug additions of 1.8 to 2.8 fluid ounces of Chem Pro Microbiocides No. 211 per 1000 gallons of water to provide 1.8 to 2.8 parts per million of Chem Pro Microbiocides No. 211 should be employed every 30 days, as needed. The frequency of application depends upon the relative amount of algae and the severity of the microbial problem. Slug additions should be made in the sum of the water cooling tower.

STORAGE AND DISPOSAL: Keep container closed when not in use. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Do not reuse empty container, triple rinse (or equivalent) and dispose of container in an incinerator or an approved landfill, or bury in a safe place. If safe that cannot be used for reprocessing should be disposed of in a safe, still approved for residues or buried in a safe place away from water supplies. Open dumping is prohibited.
