POOLTIME ALGAECIDE 600

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

POOLTIME ALGAECIDE 600 is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using POOLTIME ALGAECIDE 600.

For pools having just visible algae growth add an initial dose of 11 to 17.5 ounces of POOLTIME ALGAECIDE 600 per 10,000 gallons of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 6 to 11.5 ounces of POOLTIME ALGAECIDE 600 per 10,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 2 to 4 fluid ounces of POOLTIME ALGAECIDE 600 per 10,000 gallons of water should be made every 5 to 7 days after the initial treatment.

POOLTIME ALGAECIDE 600 is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. POOLTIME ALGAECIDE 600 can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix POOLTIME ALGAECIDE 600 with concentrated dry or liquid chlorine products.

STORAGE & DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Do not reuse empty container. Triple rinse container and dispose of contents in a incinerator or in an approved landfill or burn in a safe place. Residue that cannot be used or repackaged should be disposed of in a landfill approved for pesticides. Do not store in a safe place near water supplies. Open dumping is prohibited.
