NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Hygiene

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Ionics, Inc.
3039 Washington Pike
Bridgeville, PA 15017

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Silver Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product. Make the following labeling changes before you release the product for shipment: Make the following labeling changes listed below before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 35900-2"
- b. Include the appropriate EPA Establishment No.
- c. Revise the statement "Removes....tap water" to read "This product is designed to remove objectionable tastes, odors, and color from municipally treated tap water."

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

- 2/27/7
- d. Delete the phrase "General Classification" to read "Directions for Use."
 - e. Revise the statement "Inhibits the growthfilter media" to read "This product is designed to remove objectionable tastes, odors, and color from municipally treated tap water."
 - f. Place the statement "Keep Out of Reach of Children" directly above the signal word "Caution."
 - g. Place the misuse statement "It is a violation of the Federal Law to use this product in a manner inconsistent with its labeling" directly under the subheading "Directions for Use."
 - h. Delete the phrase "Filters suspended solids" from the product labeling.

The Confidential Statement of Formula dated April 11, 1994, is in compliance with PR Notice 91-2, it agrees with the label and is acceptable.

The label claim is in compliance with PR Notice 91-2 which is the nominal concentration and it agrees with the Confidential Statement of Formula and is acceptable.

A stamped copy of the labeling is enclosed for your records.

Submit one copy of final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Sincerely,

Walter C. Francis

HYGENE

BACTERIOSTATIC WATER FILTER MEDIA
EPA REGISTRATION NO. 35900-2

HYGENE BACTERIOSTATIC WATER FILTER MEDIA

- . Removes objectionable tastes, odors, and color from municipally treated tap water
- . Inhibits the growth of bacteria within the media bed to prolong the life of the filter

ACCEPTED
with COMMENTS
in EPA Letter # 35900-2

MAR 13 1995

Under the Federal Insecticide, Fungicide, and Rodenticide Act, this product is registered under EPA Reg. No. 35900-2

WHAT IT IS AND HOW IT WORKS

The physical characteristics of HYgene Bacteriostatic Water Filter Media are comparable to those of granular activated carbon, upon which a silver coating has been deposited. Carbon was chosen as the carrier material because of its exceptionally high available surface area for the deposit of silver, and also to perform the usual functions of an activated carbon filter media by removing the many impurities often found in potable water supplies such as turbidity, suspended solids, chlorine, and objectionable tastes and odors.

Silver, which has been chemically plated onto the activated carbon, is the Bacteriostatic agent in HYgene Bacteriostatic Water Filter Media. A Bacteriostatic Filter Media is one which will inhibit the growth of bacteria within the filter bed.

Since "potable" water can, by law, contain a certain number of harmless bacteria indigenous to municipally treated water, the potential for a buildup or growth of these bacteria trapped within the filtering medium does exist.

The low level of bacteria in tap water along with organic compounds normally present in a water supply become trapped in the filter bed medium. After a period of time, the filter bed will contain considerable number of bacteria and in the presence of the organic compounds, which becomes a source of nutrients for bacteria, this filter becomes a breeding place for bacterial growth especially during non-flow periods when the water is not in use, such as overnight.

WHO MAY USE THIS PRODUCT

HYgene Bacteriostatic Water Filter Media is to be used only for manufacturing or fabricating bacteriostatic water filter products for home use. Filter manufacturers or formulators who use this media are responsible for providing data to the United States Environmental Protection Agency to support the registration of their products.
