

CONTROL NO. \_\_\_\_\_

[35922-1]

DIRECTIONS FOR USE

This concentrate is especially recommended for application using mechanical aerosol generating equipment which produces spray particles in the 5 to 50 micron diameter range, with 80% less than 30 microns. It may be used undiluted or diluted with 5 to 60 second viscosity oil.

OUTDOORS

For best results, apply when there is a light breeze at approximately 5 miles per hour. Apply from the windward side so the fog will be carried across the area to be treated for Adult Mosquito Control. Repeat treatment as required.

Using truck-mounted equipment calibrated to deliver 1 ounce per minute, apply undiluted for 1/2 minute per acre. Diluted with 2 parts concentrate to 1 part oil, apply for 3/4 minute per acre at the same delivery rate. A 300 foot swath may be treated. Do not apply closer than a 6 foot distance from shrubs and other plants.

Application to any body of water is prohibited.

INDOORS

The use of this product in food processing establishments should be confined to time periods when the plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

Remove pets, birds, and cover fish aquarium before spraying.

# CHEM - SECT

# M.A.G. 75-7.5

A highly concentrated PYRENONE Insecticide.

For application in Mechanical Aerosol Generators with or without dilution; such as, TIFA ULV.

For control of Adult Mosquitoes outdoors for fogging communities, public grounds, garbage dumps and sewerage treatment plants.

ACTIVE INGREDIENTS:

Pyrethrins . . . . .	7.50%
*Piperonyl Butoxide, Technical. . . . .	75.00%
Petroleum Distillate . . . . .	7.50%
INERT INGREDIENTS: . . . . .	10.00%
	<u>100.00%</u>

\* Equivalent to 60% of (butylcarbityl) (6-propylpiperonyl) ether and to 15.0% of related compounds

**WARNING**  
**KEEP OUT OF THE REACH OF CHILDREN**  
See side panel for additional required caution statements.

### WARNING

**KEEP OUT OF THE REACH OF CHILDREN**

See side panel for additional required caution statements.

Close doors and windows and shut off ventilating systems. Apply this concentrate undiluted using mechanical aerosol generators. Keep area closed for a minimum of one hour. Vacate treated area and ventilate before reoccupying. For indoor use fallen insects should be swept up and destroyed.

To kill adult Mosquitoes, Fruit Flies, and Gnats: With generator calibrated to deliver 1 ounce per minute, discharge at a rate of 30 seconds per 1000 cubic feet of space. Repeat treatment when reinfestation occurs. Fallen insects should be swept up and destroyed.

CAUTION: Harmful if swallowed. Do not use or store near heat or open flame. Do not breathe spray mist.

Wear mask or respirator of a type recommended by the U.S. Bureau of Mines to give adequate protection against this material. Wash hands, arms, and face with soap and water after handling and before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse.

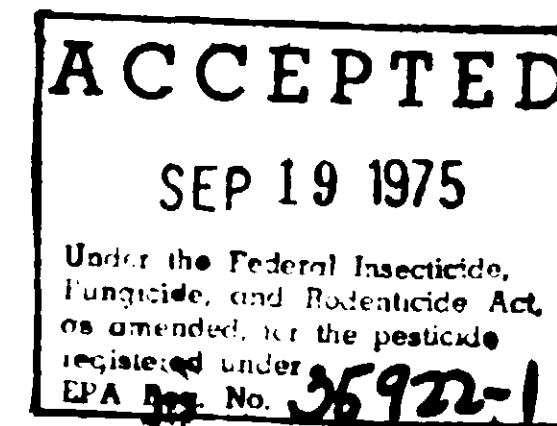

This product is toxic to fish. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.

Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur.

Do not reuse empty container. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.

Apply only as specified on the label.

FOR PEST CONTROL OPERATOR USE ONLY.
