SUBJECT: Applications for Pesticide Notification – Update Transferred Product Label and Basic Confidential Statement of Formula (CSF) and Revise Label per PR Notice 2007-4
Chloromequat Chloride Technical EPA Reg. No. 35935-62
Trinexapac-ethyl Technical EPA Reg. No. 35935-66
Thidiazuron Technical EPA Reg. No. 35935-67
Applications and Basic CSFs Dated June 5, 2009

Dear Mr. Ehresman:

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above products. The Registration Division (RD) has conducted a review of these requests for their applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The labels and Basic Confidential Statements of Formula (CSFs) dated June 5, 2009, submitted with the applications of the same date, are considered "acceptable", date stamped "Notification" and will be placed in our records. PLEASE NOTE: The Basic CSFs dated June 5, 2009 will supersede all previously "accepted" CSFs.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please call me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".
