# GROUND SQUIRREL BAIT by WILCO

For use around buildings to control California and Townsend Ground Squirrels in California, Nevada, Oregon, Washington, Idaho, and Utah only.

Ground Squirrel Bait by Wilco is actually impregnated by the toxicant.

Active ingredients:	
Diphacinone (CAS# 5266)	99.995%
1,4-Dichlorobenzene (CAS# 95-49-7)	0.005%
<b>Total</b>	<b>100.000%</b>

**KEEP OUT OF REACH OF CHILDREN**  
**CAUTION**  
**FIRST AID**

Have label with you when obtaining treatment advice.

If swallowed:

- Call a poison control center, doctor or 1-800-858-7378 immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.

The National Pesticide Telecommunications Network (NPTN) answers questions on medical emergencies, pesticide incidents, and health concerns.

**NOTE TO PHYSICIAN OR VETERINARIAN**

Contains diphacinone, an anticoagulant. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. For humans, dogs, or other animals that have ingested this product or have poisoning symptoms (bleeding) or elevated prothrombin times, give vitamin K1 intramuscularly or orally. Check prothrombin times until values return to normal.

See left side panel for additional precautionary statement.

KEEP AWAY FROM FOODSTUFFS

**ACCEPTED**

JUL 11 2007

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 36029-20

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children, pets, or other nontarget animals to rodenticides to help prevent accidents.

1. Store product not in use in a location out of reach of children, pets, and livestock.
  2. Apply this product in secured, tamper-resistant bait stations (like Wilco Ground Squirrel Bait Stations). These stations must be resistant to destruction by dogs and by children under six years of age, and must be constructed and used in ways which prevent such children from reaching into bait compartments and obtaining bait. Stations must be secured so that they cannot be overturned by young children, pets or winds. Stations used in areas open to livestock and/or nontarget wildlife must be secured so that the toxicant is readily obtained by any nontarget animals that have access to them.
- Dispose of product containers, and unused, spoiled, and unrecycled bait as specified on this label.

**USE INSTRUCTIONS:** For use only around buildings (including yards and flower gardens) in secured, tamper-resistant bait stations (like Wilco Ground Squirrel Bait Stations) to control the California Ground Squirrel (*Geomys borchgrevinkii*) and Townsend Ground Squirrel (*Geomys townsendi*) in California, Nevada, Oregon, Washington, Idaho, and Utah only. Do not apply this product by any method not specified on this label. This product may not be broadcast. Wear waterproof gloves when applying this product. Wash thoroughly and hot water wash all implements used for application. Do not use these implements for mixing, loading, or transferring foods or feed.

**APPLICATION DIRECTIONS:** Secure bait stations at locations where they will be readily accessible to target ground squirrels, preferably near active burrows. Secure stations 20 to 100 feet apart, depending upon density of the population. Wear waterproof gloves and scooping device (preferably long-handled) to transfer bait from the container to the station. Use 2 to 4 pounds of bait per bait station. Check bait stations frequently, to insure that an uninterrupted supply of bait is always available for at least 15 days or until signs of feeding have stopped.

**POST-APPLICATION DIRECTIONS:** Using waterproof gloves, collect and burn (where permitted) or bury all visible dead animals. Dispose of leftover bait according to Pesticide Disposal.
