Blake Hazen  
President  
Wilco Distributors, Inc.  
6832 N. El Mirage Road  
Glendale, AZ 85307

Subject: Notification per PRN 98-10 – Updating the company address on the label  
Product Name: Gopher Getter Type 2 Bait by Wilco  
EPA Registration Number: 36029-24  
Application Date: November 20, 2019  
Decision Number: 557957

Dear Mr. Hazen:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact please contact Jasmin Jackson at 703-347-0732 or by email at [jackson.jasmin@epa.gov](mailto:jackson.jasmin@epa.gov).

Sincerely,

A handwritten signature in black ink that reads "jasmin jackson" with "for" written below it.

Gene Benbow, Product Manager 7  
Invertebrate & Vertebrate Branch 3  
Registration Division (7505P)  
Office of Pesticide Programs

## NOTIFICATION

36029-24

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

1/9/2020

### Gopher Getter TYPE 2 BAIT by WILCO

This product may only be used to control pocket gophers in manual, below-ground applications

Active Ingredients:  
Diphacinone (CAS# 82666) ..... 0.005%  
Other ingredients ..... 99.995%  
Total ..... 100.00%

#### KEEP OUT OF REACH OF CHILDREN CAUTION FIRST AID

If swallowed	<ul style="list-style-type: none"> <li>-Call a poison control center or doctor immediately for treatment advice.</li> <li>-Have person sip a glass of water if able to swallow.</li> <li>-Do not induce vomiting unless told to do so by the poison control center or doctor.</li> </ul>
If on skin or clothing	<ul style="list-style-type: none"> <li>-Take off contaminated clothing.</li> <li>-Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>-Call a poison control center or doctor immediately for treatment advice.</li> </ul>
If in eyes	<ul style="list-style-type: none"> <li>-Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>-Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>-Call a poison control center or doctor immediately for treatment advice.</li> </ul>

#### TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian or 1-800-222-1222 at once.

**NOTE TO PHYSICIAN OR VETERINARIAN**  
Containing the anticoagulant Diphacinone. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. For humans or animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K1 intramuscularly or orally.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
CAUTION**

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Keep away from children, domestic animals and pets.

**[Products more than 1 lb]**  
**Personal Protective Equipment (PPE)**  
All handlers (including applicators) must wear long pants, shoes, socks, and water-proof gloves. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

**User Safety Requirements:**  
Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**[Products 1 lb or less]**  
Anyone handling baits or retrieving carcasses must wear waterproof gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

**ENVIRONMENTAL HAZARDS  
[Products greater than 1 lb]**  
This product is extremely toxic to mammals, fish and birds, Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinseate.

**[Products 1 lb or less]**  
This product is extremely toxic to mammals, birds and fish, Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water. Do not contaminate water when disposing of equipment wash water or rinseate.

**ENDANGERED SPECIES CONSIDERATIONS  
NOTICE:** It is a Federal offense to use any pesticide in a manner that results in the death of a member of an endangered species. The use of this product may pose a hazard to Federally designated endangered/threatened species.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.  
Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. Sweep up spillage carefully and dispose of as indicated below.  
Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.  
Container Handling: Nonrefillable container. Do not reuse or refill this container.  
**[Plastic Buckets]** Offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill or by incineration.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent consistent with applicable law, Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

**DIRECTIONS FOR USE**

It is a violation of Federal laws to use this product in a manner inconsistent with its label.

**READ THIS LABEL:** Read this entire label and follow all use directions. Use only for the sites, pests, and application directions described on this label.

**IMPORTANT:** Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:

1. Store product not in use in locations out of reach of children and pets.
2. Apply bait in locations out of the reach of children, pets, domestic animals and non-target wildlife.
3. Dispose of product container, unused, spoiled and unconsumed bait as specified on this label.

**\*USE RESTRICTIONS:** For control only of Pocket Gophers (*Geomys* sp. and *Thomomys* sp.) in and bordering crops (alfalfa, forage, hay, vegetables and grains); rangeland; orchards; and non-crop areas (forestry, plantations, golf courses, lawns and other turf areas, levee/ditch banks, nurseries, parks and around agricultural buildings). This product may only be applied at the use sites and by the application methods indicated on this label. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not apply bait above ground; bait must be applied directly into pocket gophers' burrow systems. Remove or bury any bait spilled on the ground during application. \*Only for use in residential lawns and gardens in California.

Selection of Treatment Areas: Pocket gophers throw out low, fan-shaped mounds of earth from their underground tunnels. The tunnel entrance is plugged with soil and is found near one edge of the mound. The mounds are usually at the end of short lateral tunnels which connect with the main burrow system. The main burrow is typically about 18 inches from the mound and within 10 inches of the surface. A single gopher burrow system will be about 50 feet in diameter.

**APPLICATION DIRECTIONS:**

**Method 1:** Use a pointed metal rod to probe for the main burrow. The probe will "give" when the burrow is penetrated. Remove the plug from the burrow. Apply 1/2 cup Gopher Getter Type 2 Bait by Wilco into the burrow. Carefully plug the hole with leaves, grass or similar material to prevent light from entering and soil from covering the bait. Make 2-3 applications per burrow system. Repeat treatment if fresh mounds appear after 2-3 weeks.

**Method 2:** Using a long-handled teaspoon, remove the plug from the mound. Carefully deposit 1/2 cup of Gopher Getter Type 2 Bait by Wilco as far as possible into the burrow. Close the opening with soil, being careful not to cover the bait. Treat again if fresh mounds appear after 2-3 weeks.

**Method 3:** If using the Sub-Station (underground bait station) place 1 lb of bait in the station. Align the openings of the station with the tunnel system, then cover the station with dirt. Add bait to the station as necessary.

**Method 4:** When using a hand probe applicator, such as the "WILCO GOPHER GETTER MIDGET" insert the tip into the burrow system, making certain to penetrate the tunnel. Follow the directions on the applicator and dispense 1/2 cup of bait into the gopher burrow. Remove the probe and close the remaining hole by placing a sod plug over it or kicking the opening closed. Treat again if fresh mounds appear after 2-3 weeks.

**FOLLOW-UP:** Wearing water-proof gloves, collect and dispose of all dead animals and leftover bait properly. Clean all application equipment thoroughly with hot water and detergent. Do not use application equipment to handle or transfer human food.
