FIVE EASY STEPS

1. Wet animal thoroughly.
2. Apply generous amount of WONDER FLUFF to the coat, massaging the lather well into the coat and skin until the entire animal is covered with lather. Pay particular attention to matted and tangled areas by applying a little extra lather and work it in well.
3. Allow lather to remain on animal for 10 minutes to permit insecticide to take full effect.
4. Rinse animal thoroughly.
5. Dry dog. You may start brushing and combing when the dog is semi-dry but best results are obtained when the coat is thoroughly dried.
