

2/2

GUTHION 2L Insecticide

RECOMMENDED APPLICATIONS (Cont'd)

CROP	PEST	Pints GUTHION 2L	REMARKS
ORNAMENTALS (Cont'd)			
Southern Pine Orchards	Coneworm Seedworm	see Remarks	Use 6 pints per 100 gallons of water (0.2% dilution) as a full coverage spray*. Use 3 pints per 10 gallons of water (1% dilution) for low volume sprayers. Apply first application within 30 days following conelet closure, followed by 3 to 5 applications (at least 30 days apart). Apply approximately 5 to 10 gallons of the 0.2% dilution with high volume sprayers or approximately 1 to 2 gallons of the 1% dilution with low volume sprayers per tree. Thorough coverage of cones is necessary for maximum control.

*This concentration is calculated for conventional hydraulic-type sprayers. When lower volumes of spray are applied per acre with concentrate sprayers, increase the concentration of GUTHION 2L insecticide in the spray mixture in order to apply amount of GUTHION 2L insecticide per acre equivalent to a full coverage spray. Where conditions dictate an air application, apply dosage per acre equivalent to a full coverage ground spray in not less than one gallon of water per acre.
