Notification to Revise Container Labeling in Accordance with PR Notice 2007-4

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C Sec. 1001 to willfully make any false statements to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§156.10, 156.140, 156.144, 156.146 and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 pf FIFRA.

**SUBJECT: Pro Packaging, Inc.
ClearView 1" Chlorinating Tablets (EPA Reg. No. 36284-1)
Application for Notification per PR Notice 2007-4**

Dear Ms. Mitchell:

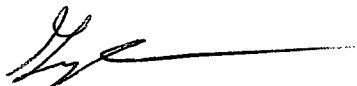

On behalf Pro Packaging, Inc., I am submitting a notification for the product **ClearView Chlorinating Tablets (EPA Reg. No. 36284-1)**. The purpose of this notification is to revise the storage and disposal section in accordance with PR Notice 2007-4. Please note the format of the label has changed to enable electronic review.

Enclosed please find the following documents in support of this notification:

1. Application for Pesticide Notification.
2. One (1) copy of the proposed product label, with changes highlighted.
3. Two (2) copies of the proposed product label.
4. CD which contains a PDF copy of the label.

Thank you for your assistance with this submission. If you have any questions, please call me at 202-393-3903 x.19 or e-mail me at georgia@lewisharrison.com.

Sincerely,

Georgia Anastasiou

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. A single CLEARVIEW™ 1" CHLORINATING TABLETS will provide 1.0 ppm available chlorine by weight per 3,000 gallons of swimming pool water. Reentry into treated pools is prohibited above levels of 3.0 ppm available chlorine. Outdoor pools stabilized with CLEARVIEW™ WATER CONDITIONER will require less chlorine. See directions on container label. This product is manufactured for use in erosion-type tablet feeders, wherein the water flows over the tablets slowly, providing a constant chlorine feed rate. Do not place tablets directly into the pool. Contact with concrete and vinyl may cause staining.

CHLORINATION:

Establish an initial chlorine residual: Establish an initial chlorine residual in the 1.0 - 3.0 ppm range with a fast-dissolving, granular product such as CLEARVIEW™ GRANULAR CHLORINATING CONCENTRATE 56 or a liquid chlorinating product. Follow directions of the labels of these products.

Maintenance of the chlorine residual: When an initial residual has been established, maintain the residual with 14 tablets per 8,000 gallons every 7 - 14 days in a chlorine tablet feeder. The number of tablets used every 7 - 14 days may vary with temperature, wind, pool usage, and feeding method. Test the chlorine residual in the pool water frequently with a reliable test kit. Adjust the tablet feed rate as necessary to maintain the chlorine residual in the 1.0 - 1.5 ppm range.

pH: Measure pH of swimming pool water immediately prior to treatment with CLEARVIEW™ 1" CHLORINATING TABLETS. Use a reliable test kit. If necessary, adjust and maintain pH within 7.2 - 7.6 range. pH DOWN lowers pH. pH UP raises pH. Follow directions for use on these labels.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER - CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing, and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your local State Water Board or the regional office of the EPA.

PHYSICAL OR CHEMICAL HAZARD: Strong Oxidizing Agent. Mix only with water. Use clean, dry utensils. Do not add CLEARVIEW™ 1" CHLORINATING TABITS to any dispensing device which contains remnants of any other products. Such use may lead to a violent chemical reaction leading to fire and/or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases, and/or possible fire and/or explosion. In case of decomposition, isolate container in open air or in a well-ventilated area. If necessary, flood with large quantities of water and flush to a sanitary sewer.

STORAGE AND DISPOSAL: Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large quantities of water to dissolve all material before discarding. Non-refillable container. Do not reuse or refill the container. Offer for recycling if available or securely wrap original container with several layers of newspaper and discard in trash.
