SEP 29 2014

Subject: Application for Notification to Update Label  
**ClearView 1" Chlorinating Tablets**  
EPA Registration Number: **36284-1**  
Application Date: August 28, 2014  
Application Receipt: September 9, 2014

Dear Ms. Radtke:

This acknowledges receipt of your Notification application, submitted under the provisions of FIFRA 3(c) 9.

Purpose of the Notification:

"Purpose is to revise language for First Aid, Storage and Disposal and minor changes in Precautionary Statements and Physical and Chemical Hazards."

"Changes include revisions to:

Revise order of first aid to: Eyes, Skin, Inhaled, and Swallowed.

Update Storage and Disposal language and separation of pesticide storage, disposal and container handling.

Precautionary Statements to add "or going to the toilet".

Revise Physical and Chemical Hazards to read: Last 2 sentences: In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

Update Environmental Hazard language related to container sizes."

General Comments:

Based on the review of the information submitted, the following comments apply. The Notification is **Acceptable**. A copy of the accepted Notification is attached in **Regulatory File Jacket 36284-1** for future reference.

If you have questions or concerns with regard to this Agency Letter, please contact Killian Swift by email at [Swift.Killian@epa.gov](mailto:Swift.Killian@epa.gov) by telephone at **703-308-6346**. When you are submitting information or data in response to this Agency Letter, please send a copy of this Agency Letter with your response in order to facilitate processing.

Sincerely yours,

*for*

### FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

<b>IF IN EYES:</b>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
<b>IF ON SKIN OR CLOTHING:</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
<b>IF INHALED:</b>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
<b>IF SWALLOWED:</b>	Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
<b>Note to Physician:</b> Probable mucosal damage may contraindicate the use of gastric lavage.

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. A single 1" chlorinating tablet will provide 1.0 ppm available chlorine by weight per 3,000 gallons of swimming pool water. Reentry into treated pools is prohibited above levels of 4.0 ppm available chlorine. Outdoor pools stabilized with water conditioner will require less chlorine. See directions on container label. This product is manufactured for use in erosion-type tablet feeders, wherein the water flows over the tablets slowly, providing a constant chlorine feed rate. Do not place tablets directly into the pool. Contact with concrete and vinyl may cause staining.

**CHLORINATION:**

**Establish an initial chlorine residual:** Establish an initial chlorine residual in the 1.0 - 3.0 ppm range with a fast-dissolving, granular product or a liquid chlorinating product. Follow directions of the labels of these products.

**Maintenance of the chlorine residual:** When an initial residual has been established, maintain the residual with 14 tablets per 8,000 gallons every 7 - 14 days in a chlorine tablet feeder. The number of tablets used every 7 - 14 days may vary with temperature, wind, pool usage, and feeding method. Test the chlorine residual in the pool water frequently with a reliable test kit. Adjust the tablet feed rate as necessary to maintain the chlorine residual in the 1.0 - 1.5 ppm range.

**pH:** Measure pH of swimming pool water immediately prior to treatment with this product. Use a reliable test kit. If necessary, adjust and maintain pH within 7.2 - 7.6 range. pH Down lowers pH. pH Up raises pH. Follow directions for use on these labels.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER: CORROSIVE.** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or going to the toilet. Remove contaminated clothing and wash before reuse.

*{Nonrefillable containers 50lb and less}*

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms.

*{Containers larger than 50lbs}*

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

5/5-

**PHYSICAL AND CHEMICAL HAZARDS:**

**STRONG OXIDIZING AGENT.** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may lead to a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases, and possible generation of fire and/or explosion. In case of contamination or decomposition do not reseal container. Isolate container in open air or in a well-ventilated area. Flood with large quantities of water and flush to a sanitary sewer.

**STORAGE AND DISPOSAL:**

**Do not contaminate water, food or feed by storage or disposal.**

**STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in a dry, cool and well-ventilated area. Avoid moisture getting into container. Keep off wet floors. In case of spillage, wash with large amounts of water. After each use, keep container tightly closed. Oxidizing material. Keep away from flames, sparks and all sources of heat. Avoid contact with organic material.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. Place in trash or offer for recycling if available.

**IF PARTLY FILLED:** To dispose product in partly filled containers or for large quantities call your local solid waste agency for disposal instructions. Do not reuse empty container.

For disposal of a contaminated or decomposing product see **EMERGENCY HANDLING.**

**EMERGENCY HANDLING:** In case of contamination or decomposition, do not reseal container. Immediately remove container to an open and well ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and remaining contaminated material in an approved landfill area.
