

<p>US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (FS 767) WASHINGTON, DC 20460</p> <p><b>NOTICE OF PESTICIDE:</b> <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREГИSTRATION</p> <p><i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i></p>	<p>EPA REGISTRATION NO. 36284-3</p> <p>TERM OF ISSUANCE</p>	<p>DATE OF ISSUANCE OCT 27 1983</p>
<p>NAME OF PESTICIDE PRODUCT</p> <p>Poolaid Granular Chlorinating Concentrate</p>		
<p>NAME AND ADDRESS OF REGISTRANT (Include ZIP code)</p> <p>Ortex Products of California, Inc. 701 N. Hariton Street Orange, California 92667</p>		
<p><b>NOTE:</b> Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Make the following labeling changes before you release the product for shipment:</p> <ol style="list-style-type: none"> <li>1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.</li> <li>2. Revise the Environmental Hazards to read as follows:  "This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant</li> </ol> <p><input type="checkbox"/> ATTACHMENT IS APPLICABLE</p>

authority. For guidance, contact your State Water Board or Regional Office of the EPA".

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Enclosure

Note: This label is for polyethylene bottles containing less than 5 pounds of Chlorinating Concentrate.

**POOLAID  
GRANULAR CHLORINATING CONCENTRATE**

**Chlorinating Concentrate Dissolves Immediately  
Effective Germicide and Algaecide  
Will Not Cause Cloudiness in Pool or Spa Water  
Will Not Add Scale-Forming Chemicals to Water**

Active Ingredient: Sodium Dichloro-s-triazinetriene .....  
Inert Ingredients: .....  
Available Chlorine: .....

**KEEP OUT OF THE REACH OF CHILDREN**

**DANGER**

**See FIRST AID and Other PRECAUTIONS on Back Panel.**

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

SEP 27 1994

Under Federal Insecticide,  
Fungicide and Rodenticide Act as  
amended for the pesticide  
regulation under EPA Reg. No.

**BEST AVAILABLE**

ORTEX Products of  
California, Inc.  
Orange, California 92667

**Net Weight: 4 Pounds**

36284-3

#### DIRECTIONS FOR USE

It is a violation of Federal law to use POOLAID GRANULAR CHLORINATING CONCENTRATE in a manner inconsistent with its labeling.

2½ ounces of GRANULAR POOLAID CHLORINATING CONCENTRATE will provide 1.0 ppm available chlorine by weight per 10,000 gallons of swimming pool or spa water. Reentry into treated swimming pool or spa water is prohibited above levels of 3.0 ppm available chlorine. Outdoor pools stabilized with POOLAID WATER CONDITIONER will require less chlorine. See directions on conditioner label.

#### CHLORINATION

##### Establish an Initial Chlorine Residual

Establish an initial chlorine residual in the 1.0 - 3.0 range with POOLAID GRANULAR CHLORINATING CONCENTRATE by adding 11 - 22 ounces per 10,000 gallons. Broadcast evenly over the surface of the water. For spas, add ¼ - 3 ounces per 500 gallons.

##### Maintenance of Chlorine Residual

When an initial residual has been established, maintain the residual by adding 1.0 - 3.0 ounces POOLAID GRANULAR CHLORINATING CONCENTRATE daily or as needed to maintain the residual in the 1.0 - 3.0 ppm range. For spas add ¼ ounce daily or as needed. The actual dosage may vary with temperature, wind, pool or spa usage, and feeding method. Test the chlorine residual in the pool or spa water frequently with a reliable test kit.

#### SUPERCHLORINATION OR SHOCK TREATMENT

Every 7 - 10 days, after heavy use, wind storms, rain, or high temperature, or whenever water appears cloudy or discolored, superchlorinate or shock treat pool water with 11 - 22 ounces POOLAID GRANULAR CHLORINATING CONCENTRATE per 10,000 gallons. For spas use ¼ - 3 ounces per 500 gallons. Resume maintenance chlorination once the chlorine residual drops back into the 1.0 - 1.5 ppm range.

#### pH

Measure pH of swimming pool or spa water immediately prior to treatment with POOLAID GRANULAR CHLORINATING CONCENTRATE. Use a reliable test kit. If necessary adjust and maintain pH within 7.2 - 7.6 range. POOLAID DRY ACID lowers pH. POOLAID SODA ASH raises pH. Follow directions for use on these products.

#### STORAGE AND DISPOSAL

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large quantities of water to dissolve all material before discarding. Do not reuse empty container. Securely wrap

original container with several layers of newspaper and discard in trash.

#### FIRST AID

IF SWALLOWED: Feed bread soaked in milk followed by cooking oil or olive oil. Call a physician immediately.

IF ON SKIN: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

IF IN EYES: Flush eyes with cold water. If applicable, remove contact lenses. Continue flushing with cold water for 15 minutes. Get medical attention.

#### PRECAUTIONARY STATEMENTS

##### Hazards to Humans and Domestic Animals

DANGER. Highly corrosive. Causes skin and eye damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

##### Environmental Hazards

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless said discharge is in accordance with a NPDES permit. Do not treat water 24 hours prior to discharge. For guidance, contact the regional office of EPA, State water board, or the manufacturer.

##### Physical and Chemical Hazards

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device which contains remnants of any other product. Such use may lead to a violent chemical reaction leading to fire and/or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases, and/or possible fire and/or explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or in well-ventilated area. If necessary, flood with large quantities of water and flush to a sanitary sewer.

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention".

"If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention".

"If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists".

"If swallowed: Drink promptly large quantities of water. Avoid alcohol. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention".
