Subject: ClearView Algae-Cure
 EPA Registration Number 36284-4
 Application Date: 12/1/05
 Receipt Date: 12/8/05

Dear Ms. Anasatasiou:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To add the signal word "DANGER" immediately below the subheading "Hazard to Humans and Domestic Animals".

Conditions

Align the "Ingredient" statement to read:

ACTIVE INGREDIENT

Trichloro-s-Triazinetrione 99%

OTHER INGREDIENTS 1%

TOTAL 100%

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

ClearView

algaecure

Effective for black and green
algae in swimming pools

FOR PROFESSIONAL USE

Do not use in vinyl liner pools, painted pools,
or colored plaster cement pools.

ACTIVE INGREDIENT:

TRICHLORO-S-THIAZINETHIONE..... 99%

OTHER INGREDIENTS..... 1%

TOTAL 100%

AVAILABLE CHLORINE 90%

KEEP OUT OF REACH OF CHILDREN

DANGER

water treatment

See side panel for additional precautionary statements.

FIRST AID	
If Swallowed	Call a poison control center or doctor immediately for treatment advice. Promptly drink large quantity of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.
If In Eyes	Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
If on Skin or Clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.
If Inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor immediately for treatment advice.
Have the product container or label with you when calling poison control center or doctor, or going for treatment.	
Note to Physician: Probable mucousal damage may contraindicate the use of gastric lavage.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Elimination of Existing Algae Growth: CLEARVIEW "ALGAECURE" is highly effective for control of black and green algae infestations and will aid in the removal of algae stains on surfaces in contact with pool or spa water. Treat pool or spa water only when pool or spa is not in use. Repeat treatment whenever visible algae growth occurs. Turn off filter and pump prior to application and keep off for at least 8 hours after treatment.

1. Brush algae spots on walls and bottom with a stainless steel brush.

2. Sprinkle CLEARVIEW "ALGAECURE" directly over pool or spa walls and/or bottom where algae growth appears. Use approximately 16 ounces CLEARVIEW "ALGAECURE" per 10,000 gallons of pool water. For spas, use 3/4 - 1 ounce per 500 gallons. For heavy algae growth, dosage may be doubled.

3. Brush algae spots again with a stainless steel brush and vacuum debris to waste.

Superchlorination: Swimming pools and spas should be super chlorinated once each 7 - 10 days when not in use, after rain or dust storms, during hot weather, and whenever water is cloudy or floating algae appears on the water surface.

Broadcast 7 1/2 to 15 ounces CLEARVIEW "ALGAECURE" per 10,000 gallons pool water over the deepest end of the pool. For spas, use 3/8 to 3/4 ounces CLEARVIEW "ALGAECURE" per 500 gallons spread evenly over water surface of spa.

After Treatment:

1. Measure pH of swimming pool or spa water immediately after application. Use a reliable test kit. If necessary, adjust and maintain pH within 7.2 - 7.6 range. pH Down (dry acid) lowers pH. pH Up (soda ash) raises pH. Follow directions for use contained on the labeling of these products.

2. Reentry into treated swimming pools or spas is prohibited above levels of 3.0 ppm available chlorine.

PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER - CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing, and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARD: STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device which contains remnants of other product. Such use may lead to a violent chemical reaction leading to fire and/or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases, and/or possible fire and/or explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or in a well-ventilated area. If necessary, flood with large quantities of water and flush to a sanitary sewer.

STORAGE AND DISPOSAL: Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large quantities of water to dissolve all material before discarding. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal site. Completely empty plastic liner by shaking or tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of plastic liner in a sanitary landfill or by incineration if allowed by State and local authorities. If container is contaminated, dispose of in the same manner. If container is not damaged, it may be reused. Do not contaminate water, food, or feed by storage or disposal.
