Ms. Ana Rodriguez-Koster  
Lewis & Harrison, LLC  
122 C. Street, N.W., Suite 740  
Washington, D.C. 20001

Subject: Clear View 1" Chlorinating Tablets  
EPA Registration Number 36284-5  
Application Date: 1/2/04  
Receipt Date: 1/5/04

Dear Ms. Rodriguez-Koster:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To update the "First Aid" statement in accordance with PR Notice 2001-1
- To change product name from "Pool Aid Jumbo Chlorinating Tablets" to "Clear View Jumbo Chlorinating Tablets"
- Other minor changes

**Conditions**

1. In the "Ingredient" statement delete the "s" on Active Ingredients.
2. Align the "Ingredient" statement to read:

Active Ingredient	
Trichloro-s-triazinetrione.....	99.0%
Other Ingredients .....	1.0%
Total	100.0%

Available Chlorine 90%

**CONCURRENCES**

<b>SYMBOL</b>	75102						
<b>SURNAME</b>	den						
<b>DATE</b>	6/25/04						

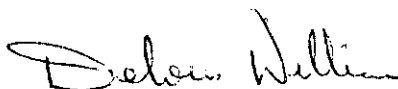

**General Comments**

The proposed product name change has been made a part of our record.

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

for Emily Mitchell  
Acting Product Manager 32  
Regulatory Management Branch II  
Antimicrobials Division (7510C)

<b>FIRST AID</b>	
Have the product container or label with you when calling poison control center or doctor, or going for treatment.	
<b>If Swallowed:</b>	Call a poison control center or doctor immediately for treatment advice. Promptly drink large quantity of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.
<b>If in Eyes:</b>	Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
<b>If on Skin or Clothing:</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.
<b>If Inhaled:</b>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor immediately for treatment advice.
<b>Note to Physician:</b> Probable mucosal damage may contraindicate the use of gastric lavage.	

#### PRECAUTIONARY STATEMENTS

##### Hazards to Humans and Domestic Animals

**CORROSIVE:** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mist. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

##### Environmental Hazards

This pesticide is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your local State Water Board or Regional Office of the EPA.

##### Physical and Chemical Hazards

**STRONG OXIDIZING AGENT.** Mix only with water. Use clean, dry utensils. Do not add [*ClearView JUMBO CHLORINATING TABLETS*] [this product] to any dispensing device which contains remnants of any other product. Such use may lead to a violent chemical reaction leading to fire and/or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases, possible fire and/or explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or in well-ventilated area. If necessary, flood with large quantities of water and flush to a sanitary sewer.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated pools is prohibited above levels of 3.0 ppm [*available*][*off*] chlorine.

[A single CLEARVIEW JUMBO CHLORINATING TABLET (*Slow Dissolving, Stabilized Tablets*) will provide 4.7 ppm available chlorine by weight per 10,000 gallons of swimming pool water.

CLEARVIEW JUMBO CHLORINATING TABLETS (*Slow Dissolving, Stabilized Tablets*) [This product] are [is] manufactured for use in erosion-type tablet feeders, wherein the water flows over the tablets slowly, providing a constant chlorine feed rate. Do not place tablets directly into the pool. Contact with concrete and vinyl may cause staining.

## CHLORINATION

## Establish and Initial Chlorine Residual

Establish an initial chlorine residual in the 1.0 – 3.0 ppm range with a fast-dissolving, granular product such as CLEARVIEW GRANULAR CHLORINATING CONCENTRATE 56 or a liquid chlorinating product. Follow directions on the labels of these products.

## Maintenance of Chlorine Residual

When an initial residual has been established, maintain the residual with 1 tablet per 8,000 gallons every 7 – 14 days in a chlorine tablet feeder. The number of tablets used ever 7 – 14 days may vary with temperature, wind, pool usage, and feeding method. Test the chlorine residual in the pool water frequently with a reliable test kit. Adjust the tablet feed rate as necessary to maintain the chlorine residual in the 1.0 – 1.5 ppm range.

## pH

Measure pH of swimming pool water immediately prior to treatment with CLEARVIEW JUMBO CHLORINATING TABLETS [this product]. Use a reliable test kit. If necessary, adjust and maintain pH within 7.2 – 7.6 range. pH DOWN lowers pH. pH UP raises pH. Follow directions for use on these products.]

**[FOR CONTINUOUS DAILY CHLORINATION**

Before the first use of POOL STICKS [this product], be sure to take the following steps:

1. Adjust the pool water pH value to between 7.2 pH and 7.8 total alkalinity to between 80 and 150 ppm as determined by a suitable test kit
2. Stabilize pool water to at least 40 ppm with Conditioner as directed on the container label. Thereafter, regular use of these POOL STICKS [this product] for daily chlorination will provide any needed makeup conditioner.
3. Shock Treat the pool water to oxidize organic contaminants. Follow the label directions. Before using the pool, be certain the chlorine level returns to 1.0 – 1.5 ppm.
4. Maintain a free available chlorine level of 1.0 – 1.5 ppm (as determined daily by a suitable test kit) at all times. By means of a feeder, float device, or skimmer dispenser, immerse one POOL STICK (or as many as may be necessary to maintain the proper chlorine level) for each 5,000 to 10,000 gallons of pool water.) NEVER ADD THESE POOL STICKS [this product] DIRECTLY INTO THE SWIMMING POOL AS DISCOLORATION OF THE POOL LINER OR FINISH MAY OCCUR.
5. Shock treat your pool at least twice monthly (more often in sunbelt regions). During hot weather and peak bather loads, shock treat your pool weekly to prevent water cloudiness and algae growth.]

**STORAGE AND DISPOSAL**

Keep [this] product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large quantities of water to dissolve all material before discarding. Do not reuse empty container. Securely wrap original container with several layers of newspaper and discard in trash.
