OCT 1 2014

Subject: Notification to Update Label per PR Notice 98-10
ClearView Jumbo Chlorinating Tablets
EPA Registration Number: **36284-5**
Application Date: August 28, 2014
Application Receipt: September 9, 2014

Dear Ms. Radtke:

This acknowledges receipt of your Notification application, submitted under the provisions of FIFRA 3(c) 9 and PR Notice 98-10.

Purpose of the Notification:

"Purpose is to revise language for First Aid, Storage And Disposal and minor changes in Precautionary Statements and Physical Hazards."

"Changes include revisions to:

Revise order of first aid to: Eyes, Skin, Inhaled, Swallowed.

Update Storage and Disposal language and separation of pesticide storage, disposal and container handling.

Precautionary Statements to add "or going to the toilet".

Revise Physical and Chemical Hazards to read: Last 2 sentences: In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

Update Environmental Hazards language related to container sizes."

General Comments:

Based on the review of the information submitted, the following comments apply. The Notification is **Acceptable**. A copy of the accepted Notification is attached in **Regulatory File Jacket 32684-5** for future reference.

If you have questions or concerns with regard to this Agency Letter, please contact Killian Swift by email at Swift.Killian@epa.gov by telephone at **703-308-6346**. When you are submitting information or data in response to this Agency Letter, please send a copy of this Agency Letter with your response in order to facilitate processing.

Sincerely yours,

for 

Demson Fuller

DANGER

FIRST AID	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice..
IF ON SKIN OR CLOTHING:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice
IF SWALLOWED:	Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. A single full strength, low odor, slow dissolving, stabilized jumbo chlorinating tablet will provide 4.7 ppm available chlorine by weight per 10,000 gallons of swimming pool water. Reentry into treated pools is prohibited above levels of 4.0 ppm available chlorine. This product is manufactured for use in erosion-type tablet feeders, wherein the water flows over the tablets slowly, providing a constant chlorine feed rate. Do not place tablets directly into the pool. Contact with concrete and vinyl may cause staining.

CHLORINATION:

Establish an initial chlorine residual: Establish an initial chlorine residual in the 1.0 - 3.0 ppm range with a fast-dissolving, granular product or a liquid chlorinating product. Follow directions on the labels of these products.

Maintenance of chlorine residual: When an initial residual has been established, maintain the residual with 1 tablet per 8,000 gallons every 7 - 14 days in a chlorine tablet feeder. The number of tablets used every 7 - 14 days may vary with temperature, wind, pool usage, and feeding method. Test the chlorine residual in the pool water frequently with a reliable test kit. Adjust the tablet feed rate as necessary to maintain the chlorine residual in the 1.0 - 1.5 ppm range.

pH: Measure pH of swimming pool water immediately prior to treatment with this product. Use a reliable test kit. If necessary, adjust and maintain pH within 7.2 - 7.6 range. pH DOWN lowers pH. pH UP raises pH. Follow directions for use on these products.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or going to the toilet. Remove contaminated clothing and wash before reuse.

{Nonrefillable containers 50lb and less}

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

{Containers larger than 50lbs}

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.
