Marianne Radtke  
Regulatory Agent  
Pro Packaging, Inc.  
42306 Remington Ave.  
Temecula, CA 92590

Subject: Notification per PRN 98-10 – Add symbols and phrases “Full strength”, “Low odor chlorine” and “Slow dissolving” on label.  
Product Name: ClearView Jumbo Chlorinating Tablets  
EPA Registration Number: 36284-5  
Application Date: 07/13/2015  
Decision Number: 507829

Dear Ms. Radtke:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

If you have any questions, you may contact David Liem at 703-305-1284 or via email at [liem.david@epa.gov](mailto:liem.david@epa.gov).

Sincerely,

Demson Fuller, Product Manager 32  
Regulatory Management Branch II  
Antimicrobials Division (7510P)  
Office of Pesticide Programs

## Jumbo Chlorinating Tablets NOTIFICATION

### Slow Dissolving, Stabilized

36284-5

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

08/12/2015

#### ACTIVE INGREDIENTS:

TRICHLORO-S-TRIAZINETRIONE ..... 99%

INERT INGREDIENTS ..... 1%

TOTAL ..... 100%

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

<b>FIRST AID</b>	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
<b>IF IN EYES:</b>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye. Call a poison control center or doctor for treatment advice.
<b>IF ON SKIN OR CLOTHING:</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
<b>IF INHALED:</b>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
<b>IF SWALLOWED:</b>	Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
<b>Note to Physician:</b> Probable mucosal damage may contraindicate the use of gastric lavage.

*[ Items in brackets [AAA] are optional and may/may not be included on final label ]  
{ Items in braces {AAA} are for information purposes and will not appear on final label }*

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. A single full strength, low odor, slow dissolving, stabilized jumbo chlorinating tablet will provide 4.7 ppm available chlorine by weight per 10,000 gallons of swimming pool water. Reentry into treated pools is prohibited above levels of 4.0 ppm available chlorine. This product is manufactured for use in erosion-type tablet feeders, wherein the water flows over the tablets slowly, providing a constant chlorine feed rate. Do not place tablets directly into the pool. Contact with concrete and vinyl may cause staining.

**CHLORINATION:**

**Establish an initial chlorine residual:** Establish an initial chlorine residual in the 1.0 - 3.0 ppm range with a fast-dissolving, granular product or a liquid chlorinating product. Follow directions on the labels of these products.

**Maintenance of chlorine residual:** When an initial residual has been established, maintain the residual with 1 tablet per 8,000 gallons every 7 - 14 days in a chlorine tablet feeder. The number of tablets used every 7 - 14 days may vary with temperature, wind, pool usage, and feeding method. Test the chlorine residual in the pool water frequently with a reliable test kit. Adjust the tablet feed rate as necessary to maintain the chlorine residual in the 1.0 - 1.5 ppm range.

**pH:** Measure pH of swimming pool water immediately prior to treatment with this product. Use a reliable test kit. If necessary, adjust and maintain pH within 7.2 - 7.6 range. pH DOWN lowers pH. pH UP raises pH. Follow directions for use on these products.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER; CORROSIVE:** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or going to the toilet. Remove contaminated clothing and wash before reuse.

~~{Nonrefillable containers 50lb and less}~~

~~**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms.~~

~~{Containers larger than 50lbs}~~

~~**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.~~

*[ Items in brackets [AAA] are optional and may/may not be included on final label ]  
{Items in braces {AAA} are for information purposes and will not appear on final label}*

**PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT.** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may lead to a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases, and possible generation of fire and/or explosion. In case of contamination or decomposition, do not reseal container. Isolate container in open air or in a well ventilated area. Flood with large quantities of water, if necessary.

**STORAGE AND DISPOSAL:**

**Do not contaminate water, food or feed by storage or disposal.**

**PESTICIDE STORAGE:** Store in a dry, cool and well-ventilated area. Avoid moisture getting into container. Keep off wet floors. In case of spillage, wash with large amounts of water. After each use, keep container tightly closed. Oxidizing material. Keep away from flames, sparks and all sources of heat. Avoid contact with organic material.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. Place in trash or offer for recycling if available.

**IF PARTLY FILLED:** To dispose product in partly filled containers or for large quantities call your local solid waste agency for disposal instructions. Do not reuse empty container.

For disposal of a contaminated or decomposing product see **EMERGENCY HANDLING.**

**EMERGENCY HANDLING:** In case of contamination or decomposition, do not reseal container. Immediately remove container to an open and well ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and remaining contaminated material in an approved landfill area.
