EPA Reg.  
Number:

Date of Issuance:

36284-11

APR 11 2000

NOTICE OF PESTICIDE:

☒ Registration  
☐ Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

ClearView Granular  
Chlorinating  
Concentrate 56

Name and Address of Registrant (include ZIP Code):

Pro Packaging Inc.  
2591 S. Riverside Avenue  
Bloomington, CA 92316

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 36284-11".
- b. In the proposed label in the ingredient statement, the terms Active Ingredient and Inert Ingredient must be in the same print size.
- c. In the Ingredient Statement delete "and related isocyanurates".

- d. On front panel, under the product name, delete the following claims:
- Chlorinating Concentrate Dissolves Immediately
  - Effective Germicide and Algaecide
  - Will not cause cloudiness in Pool or Spa Water
  - Will not add scale forming chemicals to water
- e. Under the "Directions for Use" revise the first sentence to read: "This product is intended for use in controlling bacteria and algae in swimming pools and spas".
- f. Under the "Directions for Use" - **Shock Treatment** add to the last paragraph "Do not enter water until free available chlorine reading is below 3 ppm (mg/L). Combine chlorine is below 0.5 ppm (mg/L and the water is restored to its normal clarity".
- g. Under the "Directions for Use" - **Maintenance Treatment** add to the last paragraph "For spas, addition of ½ ounce of this product for each 1,000 gallons of water will increase the free residual chlorine by 2 ppm (mg/L)."

## STATEMENT OF PRACTICAL TREATMENT

If in eyes – Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.  
If inhaled – Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.  
If on skin – Wash with plenty of soap and water. Get medical attention if irritation persists.  
If swallowed – Drink promptly large quantities of water. Avoid alcohol. Get medical attention.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

## PRECAUTIONARY STATEMENTS

## Hazards to Humans and Domestic Animals

## DANGER

Corrosive: Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

## Environmental Hazards

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your local State Water board or Regional Office of EPA.

## Physical and Chemical Characteristics

STRONG OXIDIZING AGENT. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate each container in open air or well-ventilated area. Flood with large volumes of water if necessary.

EMERGENCY PHONE: CHEMTREC 1-800-424-9300

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner that is inconsistent with its labeling.

This product is intended for use in controlling bacteria in swimming pools and spas. This product should be added directly to the surface of circulating water according to the directions. Each ounce of this product will provide about 0.4 ppm (mg/L) of available chlorine to 10,000 gallons of water.

Reentry into treated swimming pools or spas is prohibited above levels of 3 ppm of chlorine.

## Start Up:

Before using this product, make sure that the filtration system is clean and operating properly. Adjust the pH of the water to range of 7.2-7.6 using suitable products and a reliable test kit. Adjust the alkalinity of the water to a minimum of 125 ppm (mg/L), based on the test kit reading.

5/5

## Side Panel

Add a sufficient amount of this product directly to the surface of circulating water to raise the free chlorine level in the water to 5-6 ppm (mg/L), based on the test kit reading. As a guide, for swimming pools addition of 10 ounces of this product for each 10,000 gallons of water will increase the free residual chlorine by 4 ppm (mg/L). For spas, addition of one ounce of this product for each 1,000 gallons of water will increase the free residual chlorine by 4 ppm (mg/L).

**Shock Treatment:**

Superchlorinating or shocking is necessary whenever the combined chlorine level is above 0.5 ppm (mg/L).

Combine chlorine is the difference between total and free chlorine, as measured by a suitable test kit.

Add a sufficient amount of this product directly to the surface of circulating water to raise the free chlorine level in the water to 5-6 ppm (mg/L), based on the test kit reading. As a guide, for swimming pools addition of 10 ounces of this product for each 10,000 gallons of water will increase the free residual chlorine by 4 ppm (mg/L). For spas, addition of one ounce of this product for each 1,000 gallons of water will increase the free residual chlorine by 4 ppm (mg/L). If the combined chlorine reading is not below 0.5 ppm (mg/L) and the water has been restored to its normal clarity, repeat the shock treatment described above.

**Maintenance Treatment:**

Add this product daily or as needed to maintain the free chlorine residual in the water at 1-3 ppm (mg/L) as indicated by a reliable test kit. Each ounce of this product will provide about 0.4 ppm (mg/L) of available chlorine to 10,000 gallons of water. Weather and usage effect sanitizer levels. Maintain the pH at 7.2-7.6 and the alkalinity at a minimum of 125 ppm (mg/L).

As a guide for swimming pools, addition of five ounces of this product for each 10,000 gallons of water will increase the free residual chlorine by 2 ppm (mg/L).

**STORAGE AND DISPOSAL**

**Storage:** Keep this product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve material before discarding.

**Pesticide Disposal:** Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
