

# PERSON DANGER

Hazard to Children

### Hazards to humans and Domestic Animals:

Do not breathe vapor. Inhalation may be fatal or cause severe lung injury. Do not get in eyes, on skin, or clothing. Liquid and vapor cause burns which may be delayed. Do not use ordinary rubber Protective Clothing, including gloves and shoes. Use only with adequate ventilation. Keep children and animals away from areas under treatment. Methyl Bromide is a colorless, odorless liquid and gas. Always use appropriate protection equipment such as a halide leak detector available. Make sure dangerous concentrations of gas are not present. If there is any doubt, wear a gas mask. A full face mask with an air supply tank or airline is recommended and follow the gas mask manufacturer's recommendations. A full face mask with a fresh filter canister meeting specifications of the Mining, Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provision of 30 CFR Part II for a gas mask canister as used under certain circumstances where the vapor concentration is known to be under 2% by volume. 5 minute fit test canisters should not be used for more than one half hour. Destroy used canisters by crushing.

### Environmental Hazards:

Do not spill or discharge contents outside of areas confined for treatment.

### Physical or Chemical Hazards:

Extremely hazardous liquid and vapor under pressure. Colorless, odorless liquid and vapor.

## RESTRICTED USE PESTICIDE

"For retail sale to and use only by certified applicators or persons under their direct supervision, and only for those uses covered by the certified applicators certification."

# METHYL BROMIDE

Active Ingredient Methyl Bromide.....100%

EPA EST #36301-TX-1 EPA REG #36301-6

KEEP OUT OF THE REACH OF CHILDREN

KEEP FROM CHILDREN

SEND FOR A DOCTOR IMMEDIATELY  
IN CASE OF EXPOSURE

### Statement of Practical Treatment

**IF INHALED** Carry patient to fresh air. Call a physician if necessary. Make sure patient can breathe freely. Keep patient lying down and warm. Give artificial respiration if breathing has stopped. Oxygen should be administered only by qualified personnel.

**IF ON SKIN** Immediately remove all contaminated skin covering including shoes, clothing and adhesive or other bandages. Wash skin thoroughly with soap and water. If irritation or blisters develop, get medical attention. Do not reuse shoes or clothing until free of all contamination.

**IF IN EYES** Flush immediately with plenty of water for at least 15 minutes and get medical attention.

**NOTE TO PHYSICIAN:** Keep patient at rest and under observation for 24 to 48 hours.
