BULK CERTIFIED OR HYBRID SEED GRAIN

Follow dosage recommendations... to avoid loss of seed... Must... Have... after the 24... may be accomplished... applied when... not... seed...

	Wheat Rye, Barley	Corn, Oats Coat Grains	Grain Sorghum
Galons J-FUME-75 per	6	7	10
1000 bushels	5	6	8
1000 bushels	4	6	8
1000 bushels	3	5	7
Galons J-FUME-75 per Box Car	6	9	14

Note: On... use the same dosage as recommended for 1000 bushels... use the entire surface with fumigant.

RICE AND CRACKED RICE... of fumigant per 1000 bushels if average grain temperature is between 40°F. and 75°F... fumigate when grain temperature is 60°F. or higher.

Recommended Dosages for Controlling Insect Pests in SPOT FUMIGATION

Equipment Unit	Point of Application	Suggested Dosage	
		Fluid Ounces	Milliliters (c.c.)
Sifters, Mixers, Cyclones and Filters	Handhole in spout above each section	6-8	150-200
Bins, empty	Splash on walls near top	8-100 ft	75
Conveyors	Every 6-8 feet	2 per lineal foot	150 per meter

Exposure period 24-72 hours. Aerate until no fumigant odor is present. Fumigation should only be done on weekends or holidays when building is empty of people other than trained fumigators.

**USE ONLY WITH ADEQUATE VENTILATION
DO NOT BREATHE VAPOR • DO NOT TAKE INTERNALLY
WHEN NECESSARY, USE GAS MASK SUITABLE FOR ORGANIC VAPORS**

Do not use fumigated material or feed it to livestock until aeration has eliminated the odor of the fumigant.

CLASSIFIED BY UNDERWRITERS' LABORATORIES, INC. AS TO BE HAZARDOUS ONLY. J-FUME-75 CLASSIFIED 50 TO 60 BETWEEN KEROSENE AND ALCOHOL (ETHYL) IN RESPECT TO FIRE HAZARD. SEE U.S. INDEX OF CLASSIFIED PRODUCTS 993P. "SHIPBOARD FUMIGATION IS REGULATED BY THE U.S. COAST GUARD REGULATION 46 CFR 117A.

Consult your State Agricultural Experiment Station or State Entomologist for local general information.

NOTE: Do not use containers or handling equipment of aluminum or its alloys, as under certain conditions J-FUME-75 may be corrosive to such metals. Partial evaporation leaves a flammable liquid.

Before re-use, drain drum carefully and allow any remaining contents to evaporate completely or have drum decontaminated by a commercial drum reconditioner.

STORE IN A TIGHTLY CLOSED CONTAINER, IN A COOL LOCATION AWAY FROM DWELLINGS. KEEP FUMIGANT PROPERLY LABELED.
