Keep out of Reach of Children

## CAUTION

### Hazards to Humans & Domestic Animals:

Harmful if swallowed. Do not get in eyes. Avoid breathing mist. Remove fish, birds and other pets to be sprayed. Extinguish open flame before space spraying. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

### Environmental Hazards:

This product is toxic to fish. Do not clean or discharge waste in lakes, streams or ponds. This product is toxic to bees.

### Physical or Chemical Hazards:

This formulation is combustible. DO NOT USE POUR SPILL OR STORE NEAR HEAT OR OPEN FLAME

### Directions For Use

#### General Classification

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### Storage and Disposal

#### 1. Prohibitions

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

#### 2. Pesticide Disposal

Pesticide, spray mixture, or residue that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

#### 3. Container Disposal

- (a) Reseal container and offer for reconditioning or
- (b) Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill, or bury in a safe place.

#### 4. General

Consult federal, state, or local disposal authorities for approved alternative procedures.

### ACTIVE INGREDIENTS:

### FIRST AID

In case of contact, immediately flush skin and eyes with plenty of water for at least 15 minutes. For skin and eyes call a physician.

## Directions for Use

For use in hotels, motels, homes, non food areas of institutions packaging and processing plants, seed houses and horse stables.

**SPACE SPRAY**—To kill flies, mosquitoes and gnats. Close room or area to be treated. Shut off air conditioner and ventilator system. Seal all open vents. Cover all food handling surfaces and cover or remove all food. Remove fish and pets. Apply undiluted as a very fine mist space spray through manually operated equipment or with electrical and other powered applicators. Avoid staining by holding the spray nozzle at least five feet from objects. Direct the fine spray mist toward the upper corners of the room. Fill the room with a fine mist space spray at the rate of 5 fluid ounces per 5,000 cubic feet. Leave room closed for one half hour. Ventilate thoroughly before re-entry. Sweep up and destroy fallen insects.

**CONTACT SPRAYS**—To kill roaches, ants, earwigs, grain mites, sowbugs, spiders and centipedes—Adjust spray to produce large welling type spray particles. Direct spray to contact these insects in cracks and crevices in floors, baseboards, around pipes, behind cabinets, and other harborages. Spray these infected areas until thoroughly wet. Repeat as necessary.

**TO KILL SPIDERS**—Spray directly on these pests and use repeated applications to the webbing and all cracks and crevices which harbor spiders.

**TO KILL ANTS**—Spray doors, window frames, ant trails and hills.

**TO KILL GRAIN INSECTS**—Adults of confused flour beetles, saw-toothed grain beetles, shiny spider beetles—Remove infected grain, cereal or flour and destroy. Avoid contamination of other foods and foodstuffs in the area by removing before spraying. Spray directly on exposed stages and into cracks and crevices where grain insects may be hiding. In homes, dispose of all infected products. The shelves and drawers should be cleaned thoroughly sprayed so as to contact all pests and covered with shelf paper after allowing shelves to dry. Any utensils that are contacted with spray should be washed before using. Repeat as necessary.
