## **AS A SANITIZER**

Ronchlor is an excellent sanitizer and detergent for sanitizing many types of equipment and utensils used in the handling of food products, milk, and beverages.

Equipment must be precleaned to remove filth and then rinsed with a solution containing 1½ oz. of Ronchlor in 2 gallons of water (200 ppm available chlorine). At this concentration no potable water rinse is required. Rinse solution for a contact time

# **AS A DISINFECTANT**

Treat precleaned walls, ceilings, dairy utensils, stainless steel ware (coffee pots and other stainless steel ware), porcelain surfaces (refrigerators, sinks, freezers). Use 4 oz. per gallon of water (965 ppm available chlorine). Apply by wiping or soaking. Note: At concentrations above 200 ppm available chlorine all surfaces which will subsequently come in contact with food must be thoroughly rinsed with potable water prior to reuse.

Food Se	ervice	Bakery	Other Areas
Meat Blocks	Refrigerators	Proof Boxes	Ceramic Tiles
Grinders	Sinks	Mixers	Walls and Floors
