WOOD PRESERVATIVE

Clean posts, poles, heavy timbers and wooden supports of all excess bark and foreign material, and immerse for period of 12 to 48 hours to guard against rot, termites, decay and power post beetles. Alternate application may be by dipping for 3 minutes per inch of thickness of material or flood-brush two coats generously over entire surface.

Do Not Contaminate Water by Cleaning of Equipment or Disposal of Waste.

DO NOT RE-USE CONTAINER
