Inert Ingredients 89.5%

Total 100.0%

DIRECTIONS FOR POOL USE To Establish a Chlorine Residual

Add 32 oz. for each 10,000 gallons of water. Repeat dosage until a chlorine residual of 0.6 to 1.0 ppm is obtained.

The pool water should be maintained at PH 7.2 to 7.6 as determined by a test kit.

Daily Chlorination

Add 16 oz. for each 10,000 gallons of pool water daily or as needed to maintain 0.6 to 1.0 ppm chlorine residual at all times in unstabilized pools. In pools that have been stabilized with cyanuric acid, a chlorine residual of 1.0 to 1.5 ppm should be maintained at all times.

The quantity of daily addition will vary with the temperature, sun-light, bathing load, and other factors. Test pool water frequently with a chlorine test kit to maintain the desired chlorine residual. Bathers should not be allowed in the pool when the residual chlorine is above 2.0 ppm.

Super Chlorination

Purpose: For effective algae control, a regular program of super-chlorinating at least once a week, preferably at night while pool is not in use should be maintained. Vacuum the pool after treatment to remove all dead algae.

Directions: Add 1 gallon for each 20,000 gallons of pool water directly to the pool water.

Returnable Container: When Empty, Replace Bungs Tightly and Return For Credit As Specified By Shipper.

CAUTION

Keep Out of Reach of Children. Skin and eye contact may cause irritation. Avoid contact with skin and eyes. In case of contact, flush with water. Do not use ammonia or other cleaning products. To do so will release hazardous fumes.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Do not discharge where it will drain into water. Do not contaminate water. Do not contaminate ground water. Do not contaminate surface water. Do not contaminate disposal of wastes. Apply label.

See opposite panel.

CAUTION

Keep Out Of Reach Of Children

See FIRST AID and other precautions on side panel.

EPA EST. 36394 RI01

EPA Reg. No. 36394-1

Repacked By:

Dytex Chemical Co., Inc. Central Falls, Rhode Island 02863

CAUTION

Keep Out of Reach of Children. May be Harmful if Swallowed.
Skin and eye contact may cause severe irritation. Avoid contact
with skin and eyes. In case of contact flush with plenty of water.
Do not use ammonia or other bowl cleaners with this product.
To do so will release hazardous gases.

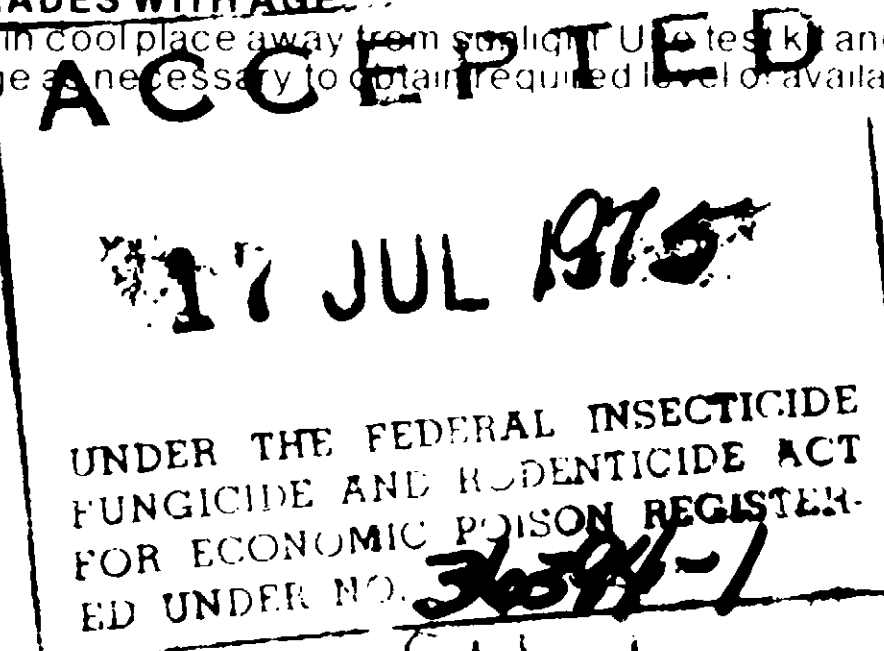

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Treated effluent should not be dis-
charged where it will drain into lakes, streams, ponds, or public
water. Do not contaminate water by cleaning of equipment or
disposal of wastes. Apply this product only as specified on this
label.

See opposite panel

DEGRADES WITH AGE:

Store in cool place away from sunlight. Use test kit and increase
dosage as necessary to obtain required level of available chlorine.
