# Pop-Up Beetle Trap Attack™

## PRECAUTIONARY STATEMENTS CAUTION

**Hazard to Humans:** Harmful if swallowed. Wash hands after using. Avoid contact with skin, eyes or clothing. In case of contact, flush eyes or skin with plenty of water. Get medical attention if irritation persists or if swallowed in any large amount.

**Directions for use:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

See insert for additional directions.

## STORAGE AND DISPOSAL

**Storage:** Store bait packets in moderate temperature out of direct sunlight.

**Disposal:** After removing bait packets from traps, wrap in paper or plastic and dispose of according to local refuse regulations.

The Reuter Pop-Up Beetle Trap is an economical way to trap and kill Japanese beetles. Made from durable, double-coated paper board, the trap will remain effective throughout the beetle season. The sex lure and floral scented lure attract beetles to the trap where they fall into the bottom and die.

**Assembly Instructions:** See Insert.

### How to Use:

1. Trap should be set out at first sighting of Japanese beetles.
2. Place traps downwind of plantings.
3. Hang traps in sunny areas with fins 3-5 feet above the ground.
4. Place traps 20-30 feet from plantings as they will attract beetles to the foliage if placed closer.
5. Set traps 10 feet apart for heavy infestations, 30 feet apart for light.
6. When bottom is full of beetles, dispose of trap. For best results, use with a wooden Reuter Attack™ Trap Stand.

**Notice:** Reuter Laboratories makes no warranty, express or implied, for any particular purpose concerning this product, other than those which are contained on this label.

PROOF OF PURCHASE

**PRECAUTIONARY STATEMENTS  
CAUTION**

**Hazard to Humans:** Harmful if swallowed. Wash hands after using. Avoid contact with skin, eyes or clothing. In case of contact, flush eyes or skin with plenty of water. Get medical attention if irritation persists or if swallowed in any large amount.

**Beetle Beetle Trap Attack Replacement Lures** contain the most effective formulations of attractants available.

This package contains one sex pheromone lure and one floral scented lure. By using both, the maximum number of beetles will be attracted to your trap.

Both lures can be used with any brand of beetle trap. When used with Reuter's Beetle Trap Attack, you can catch as many beetles as with either

lure used alone.

When traps are set out in the evening, beetles are attracted to the lures and caught in the traps.

**Note:** If you have comments or questions regarding any Reuter Natural Pest Control product, call toll-free 1-800-368-2244, Customer Service Department. Also try Reuter's Replacement Catch Bags and Wooden Trap Stand.

**Directions for Use:** In compliance of federal law to use this product in a manner inconsistent with its labeling. See insert for additional directions.

**STORAGE AND DISPOSAL**

**Storage:** Store bait packets in moderate temperature out of direct sunlight.

**Disposal:** After removing bait packets from traps, wrap in paper or plastic and dispose of according to local refuse regulations.
