PRECAUTIONARY
STATEMENTS

HAZARDS TO HUMANS:

Avoid inhalation and contact with eyes or
open wounds.

REUTER
FRUIT AND VEGETABLE SPRAY TM

Reuter Fruit and Vegetable spray is a natural, effective control for caterpillars and worms. Worms feeding on treated plants quickly become sick, stop feeding and die.

This product appears to have no adverse effects on earthworms or on beneficial insects, such as ladybugs and praying mantids.

CAN BE USED UP TO DAY OF HARVEST AND DURING STORAGE, SINCE NO HARMFUL RESIDUE EXISTS

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product is specially formulated for use on fruits and vegetables as a spray. It is best applied with a tank, hose-end or hand sprayer.

Reuter Fruit and Vegetable spray provides best control when worms and caterpillars are newly hatched. Thorough leaf coverage is important to achieve effective control.

For cutworms and armyworms, apply to foliage and soil around the plant.

For fruit and citrus trees, cover foliage thoroughly to the point of runoff.

APPLICATION RATES:

Mix two (2) teaspoons per gallon of water for all listed uses. Simply mix the proper amount of liquid material with the recommended amount of water. Mix thoroughly and agitate frequently during application. Do not store diluted spray for more than 12 hours. Repeat application every 7 days or as needed.

USE ON THESE VEGETABLES

TO CONTROL THESE INSECTS

Field and Greenhouse Vegetables Including:

| | | | |
|-----------------|-----------------|------------|--|
| Broccoli | Spinach | Collard | Armyworms |
| Cauliflower | Kale | Lettuce | Tomato fruitworm, Corn earworm, Bollworm |
