Vegetable Insect Attack®

Ringer Vegetable Insect Attack® dust is a natural, effective control for worms and caterpillars. Worms feeding on treated vegetable plants or fruits quickly become sick, stop feeding and die.

This product appears to have no adverse effects on earthworms or on beneficial insects, such as ladybugs and praying mantids. Can be used up to day of harvest and during storage, since there appear to be no harmful residues.

PRECAUTIONARY STATEMENTS CAUTION

Hazards to humans: Avoid inhalation and contact with eyes or open wounds.

Directions for use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE. To apply, just squeeze Ringer Vegetable Insect Attack in its easy to use squeeze duster, is specially formulated as a dust to provide best results when caterpillars and worms are newly hatched. Thorough leaf coverage is necessary for effective control. Apply Vegetable Insect Attack dust when pests are first noticed and repeat every 7 days or as necessary.

Application rates: Apply to foliage at a rate of 2 to 3 ounces per 50 feet of row plantings. Repeat every 7 days or as necessary.
