Ringer® Aphid-Mite Attack® Concentrate can be used on the following: foliage plants, roses, succulents, houseplants, ornamental landscape trees and shrubs, root and tuber vegetables, bulb vegetables, leafy vegetables, brassica (cole) leafy vegetables, legume vegetables, fruiting vegetables, curcubit vegetables, herbs and spices, citrus fruits, pome fruits, stone fruits, small fruits and berries, tree nuts.

It is effective against all Mites, Aphids, Crickets, Earwigs, Fungus Gnats, Lace Bugs, Leaf-Feeding Caterpillars and Beetles, Leafhoppers, Mealybugs, Plant Bugs, Scales and scale Crawlers, Thrips and Whiteflies.

### DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

#### AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with the Worker Protection Standard, 40 CFR part 170. Refer to supplemental labeling under "Agricultural Use Requirements" in the Directions for Use Section for information about this standard.

Do not apply this product through any type of irrigation system.

Aphid-Mite Attack<sup>®</sup> Concentrate provides best control when insects are newly hatched. It should be applied at first sighting of insects. Thorough coverage of both the tops and bottom of leaves is important. Spray leaves to the point of runoff. Excessive application is unnecessary and should be avoided. Do not spray foliage in full sun; spray in early morning or in the evening when temperatures are below 85°F.

SHAKE WELL BEFORE USE. Apply every 5 to 7 days when insects are present. Aphid-Mite Attack<sup>®</sup> MAY BE APPLIED UP TO THE DAY OF HARVEST. Keep container tightly covered to prevent evaporation.

APPLICATION RATE: Aphid-Mite Attack<sup>®</sup> can be applied with all types of hand or power sprayers. Read and carefully follow the instructions for the type of sprayer you use.

Mix with soft water whenever possible. For insects on most plants, mix 5 oz. (10 tbsp.) per gallon of water (Hose end sprayer automatically dilutes concentrate to 5 oz. per gallon). Use at half rate, 2 1/2 oz. (5 tbsp.) per gallon, on delicate ferns or tender new growth. Do not use on nasturtium, sweetpea, violet, mountain ash, Japanese maple, horse chestnut or newly planted cuttings. Do not store diluted spray material. Rinse empty sprayer thoroughly after use.

COVERAGE: 16 FL OZ. - treats 8-10 ten foot trees. Makes 3.75 gallons. Use up to 3.75 gallons of diluted Aphid-Mite Attack<sup>®</sup> Concentrate to treat 8-10 ten foot trees.  
24 FL OZ. - treats 12-15 ten foot trees. Makes 5.60 gallons. Use up to 5.60 gallons of diluted Aphid-Mite Attack<sup>®</sup> Concentrate to treat 12-15 ten foot trees.  
32 FL OZ. Makes 7.50 gallons.  
64 FL OZ. Makes 15.00 gallons.  
1 gallon - Makes 30.00 gallons.  
3 gallons - Makes 90.00 gallons.  
5 gallons - Makes 150.00 gallons.  
55 gallons - Makes 1650.00 gallons

#### PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals:

WARNING: Concentrate causes severe eye and skin irritation. Harmful if inhaled. Avoid breathing spray mist. Do not get in eyes, on skin or on clothing.

## Supplemental Label for Agricultural Use Requirements

### AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soils, or water is:

Clothing that avoids exposure of bare skin to product including long pants, long-sleeved shirt, socks, shoes, and protective gloves.

#### Personal Protective Equipment:

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category C on an EPA chemical resistance category selection chart.

#### Applicators and other handlers of the diluted product must wear:

Clothing that avoids exposure of bare skin to product including long pants, long-sleeved shirt, socks, shoes, and protective gloves. Protective eyewear should be used for overhead exposure.

#### Mixers and loaders of the concentrate product must wear:

Coveralls over short-sleeved shirt and short pants

Chemical-resistant gloves such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polyvinyl chloride, viton. Chemical-resistant footwear plus socks

Protective eyewear

Chemical-resistant headgear for overhead exposure

Chemical-resistant apron when cleaning equipment, mixing, or loading

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/ maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**Personal Protective Equipment:**

**WPS USES:** For applicators and other handlers who handle this pesticide for any use covered by the Worker Protection Standard (40 CFR Part 170) (in general, agricultural-plant uses are covered) see supplemental label.

**NON-WPS USES:** Applicators and other handlers who handle this pesticide for any use NOT covered by the Worker Protection Standard (40 CFR Part 170) — in general, only agricultural-plant uses are covered by the WPS — must wear: clothing that avoids exposure of bare skin to product including long pants, long sleeves, shoes, and protective gloves. Goggles should be used for overhead exposure.

**User Safety Recommendations**

**Users should:**

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**Environmental hazards:** For terrestrial uses. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark.

**Physical Hazards:** Do not use or store near open flame.

**STORAGE AND DISPOSAL:**

**Storage:** Store securely under lock and key in a cool dry place. Do not contaminate water, food or feed by storage or disposal.

**Disposal:** Do not reuse empty containers. Rinse original container thoroughly and wrap in several layers of newspaper and discard in trash or according to local regulations.

Ringer Corporation will not accept liability for damage or injury resulting from misuse, and makes no warranty, express or implied, for any purpose other than those contained on this label.
